The Swezey Family graveyard is located in an area of Middle Island called Swezeytown. The cemetery is about 45 yards east of the intersection of Swezeytown Road and Coram Swezeytown Road and approximately 30 yards into the woods south of Coram Swezeytown Road. Elbert N. Carter copied all stones on 5 July 1971. There was very heavy underbrush at the time so a stone that was down might have been missed.
