This information was compiled by County of Mono, IT Department, GIS Division. They made no mention of which cemetery these persons are interred at, only that they were interred in Mono County. There was also no explanation why there are only 48 records, or what these 48 records have in common. We removed several fields that contained phone numbers, addresses, and e-mail addresses of living persons. - Interment.net, March 23, 2020.
