Old Family Burial Lot

Located in the south east corner of Sec. II, Union Grove
twp. Whiteside Co. Ill.

Some old settlers told us there was a cemetery on the
side hill of what is now the Hanson farm. It was to be
found in an apple orchard. We inquired of the tenant.

Only three stones were left. They were stacked in the barn.

Just west of the home and farm buildings and east of Round Grove Cemetery is a burial place for those who died at the County Home. Since 1871 a record of those buried there has been kept in the running account of the Home. These records are in the office of the Superintendent of the County Nursing Home. In 1920 a separate account of the burials was begun. The following is a copy of that record.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both manual and automated techniques. The goal is to ensure that the data is as accurate and reliable as possible.

The third part of the document provides a detailed breakdown of the results. It shows that there is a clear trend in the data, which is consistent with the initial hypothesis. This finding is significant and warrants further investigation.

Finally, the document concludes with a summary of the key findings and a list of recommendations for future research. It suggests that further studies should be conducted to explore the underlying causes of the observed trends.
