

CAMBRIDGE CEMETERY LISTING OF TOMBSTONES & MARKERS

This book on the Cambridge Cemetery should help in pinpointing those graves that have been located by sections on the map.

The far right column, labeled "Nellie Book, Page & Line #" indicates the page & line number that a particular grave is listed in the published book, "Tombstone Records of Dorchester County, Maryland 1678 - 1964" written by the late Miss Nellie Marshall.

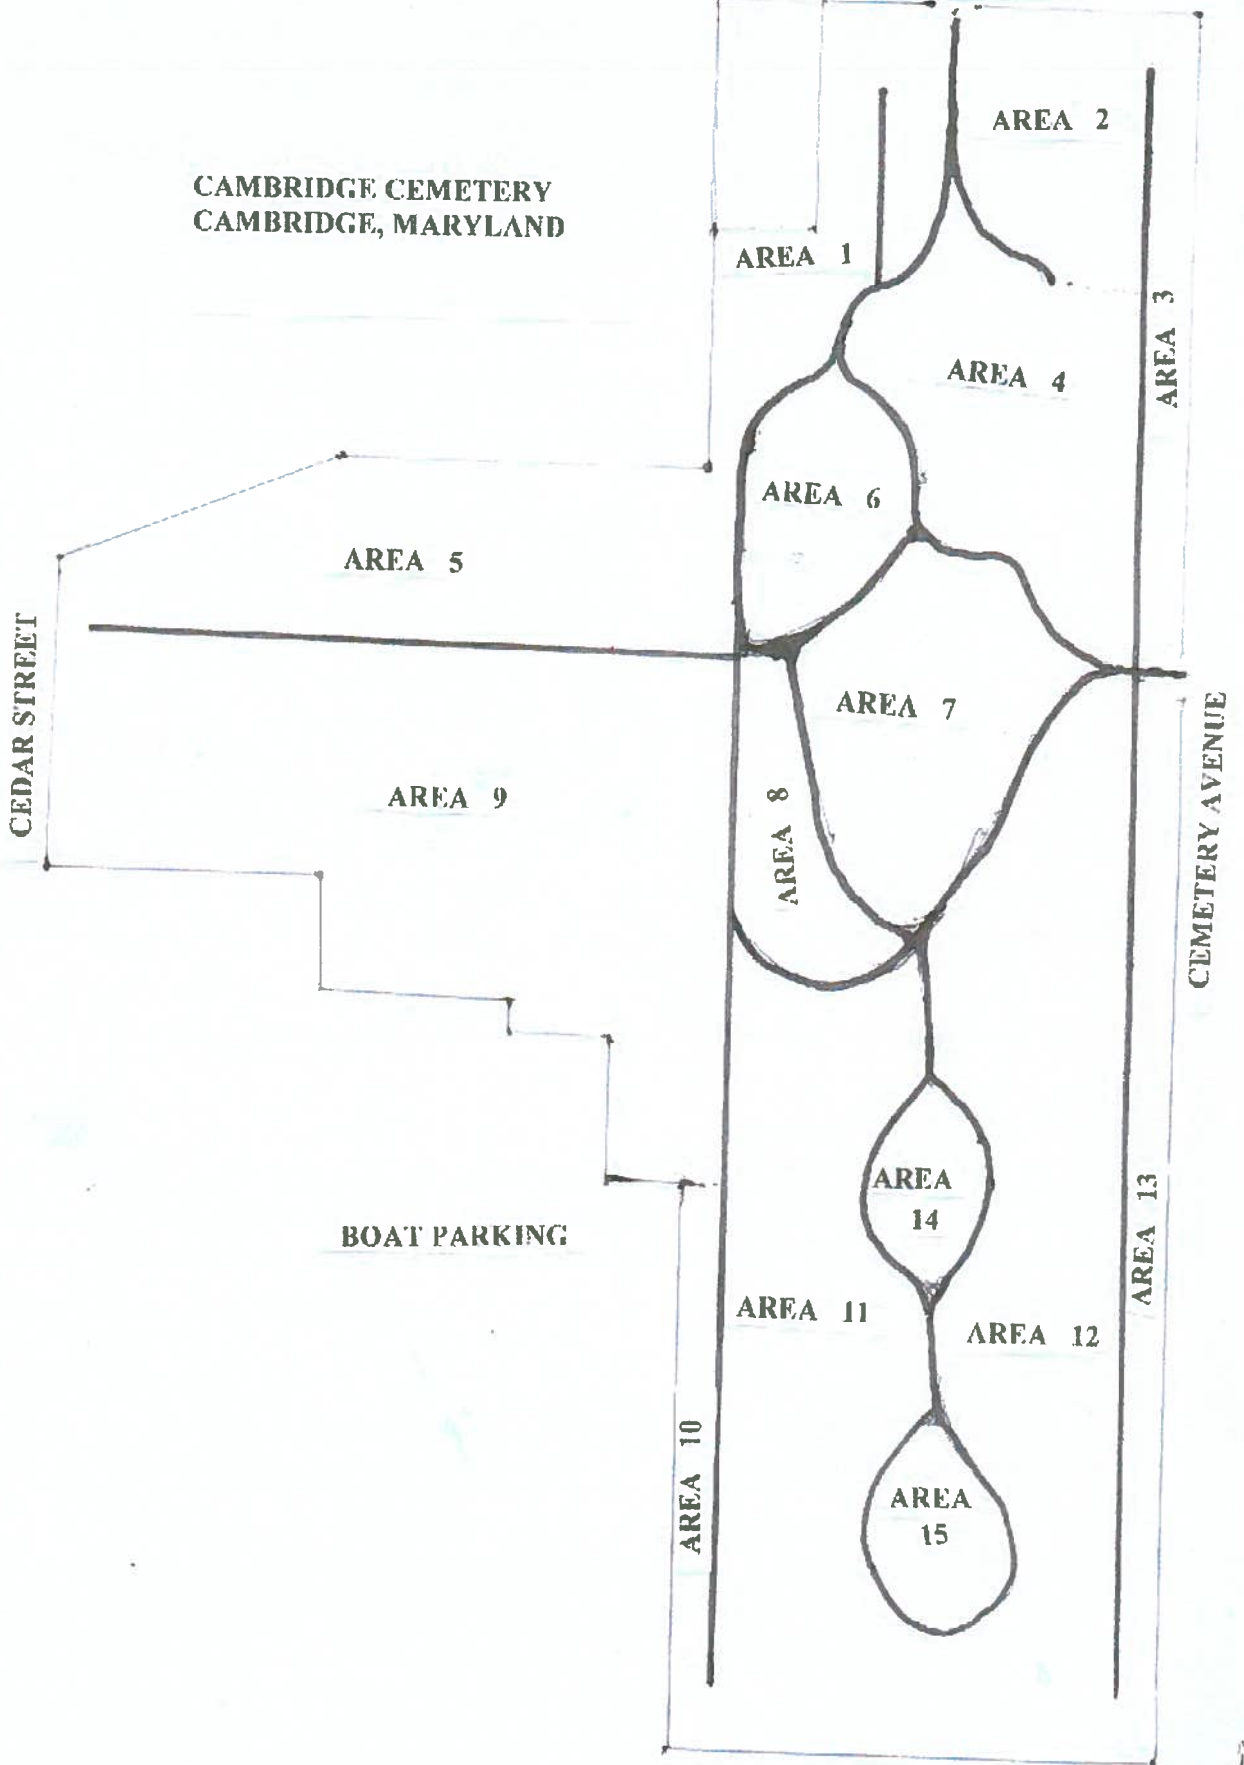

If there is no page & line number listed here, it was not listed in the publication referenced above. If there is no cemetery area number listed in the left column, this grave (tombstone) in particular has not been located although it was listed in the publication.

Many tombstones are not legible due to extensive destruction from vandalism & acts of nature. Many are also sunken, broken &/or turned over.

Booklet disclaimer: The City of Cambridge is in no way responsible for any inaccuracies to this listing - We have provided this as a starting point for Historians & citizens alike to aid in researching the History of our City & it's residents -
