PREFACE

In 1990, a small group of genealogists came together with the idea of collecting and entering all previous transcripts of Rhode Island cemetery data into an easily accessible computer database. Rhode Island is fortunate in the richness of cemetery transcriptions in its libraries and historical societies, but their scattered physical locations and wide variation in quality limit their usefulness for the average researcher. In 1977 David Dumas published a list of all the transcripts that he could find, but it probably only documents half of the transcripts that exist. You would have to visit 26 or more locations to see them all, and some are in private collections, not available to the public. In 1867 Rev. Frederic Denison recorded the cemeteries of Westerly (*Westerly and Its Witnesses*, 1878). Dr. Henry Turner (at Newport Historical Society) and G. H. Richardson recorded Portsmouth, Middletown and Newport at the end of the 19th century (Newport Historical Society and Redwood Library, Newport). George Harris recorded North and South Kingstown and part of Exeter in 1880 (Rhode Island Historical Society). James N. Arnold recorded many of the cemeteries throughout the state in the 1890s and early 1900s (Rhode Island Historical Society and Elmwood Branch of Providence Public Library). Benjamin Wilbor and Waldo Chamberlain Sprague recorded Little Compton and Tiverton in 1923 and 1959 (NEHGR Vol. 115-117, 1961-1963). Charles and Martha Benns recorded 1,000 cemeteries throughout the state in the 1930s (East Greenwich Library). Ethel White recorded many cemeteries containing Revolutionary War veterans in the 1930 (Spaulding House Research Library, Pawtucket). Mrs. Marjorie C. Pendleton recorded the cemeteries of Charlestown from 1975 to 1985 (personal papers of Marjorie Pendleton, in her possession). Mrs. Irene Nebiker recorded the cemeteries of North Smithfield from 1970 to 1985 (personal papers of Irene Nebiker, in her possession). The Foster Historical Society, under the guidance of Mrs. Margery Matthews, recorded the cemeteries of Foster from 1975 to 1995 (Foster Historical Society). This is a sampling of the 80 plus transcripts that have been located.

Rhode Island has a registration program, started in 1950, to locate and identify with a sign all of its historical cemeteries. By 1990 1,862 such cemeteries had been registered. In 1990 the cemetery transcription group was naive enough to think that all of the historical cemeteries had been registered, and with all the transcripts available, most of the cemeteries had been recorded. They soon found this was not the case. For some towns, transcriptions were found covering 90 percent of the cemeteries. For other towns, transcripts covering only 10 percent of the cemeteries could be located. Only one cemetery transcript could be found for Woonsocket. It is now estimated that 3,200 cemeteries exist in Rhode Island, 1,420 more than were registered when the project started.

The biggest problem was totally unanticipated. There are errors in the transcripts. The best are the George Harris and James Arnold transcripts, that both are 95% to 98% accurate (if you ignore George Harris's spelling of names. He spelled Champlin 'Champlain', Stedman 'Steadman' and he didn't distinguish between 'Gardner' and 'Gardiner'). Benns' records, typed from the original are about 90% accurate. Some of the transcripts were as poor as 30% accurate. There is a transcript for a small farm cemetery that contains an error on every stone. To solve the accuracy problem, each cemetery is recorded in two phases. Phase I is to put whatever transcript information could be found on a cemetery into the computer or do a new recording of it. Phase II is to go to the cemetery with a print out from the computer and verify the transcript, note the condition, material and shape of the gravestone and update with any stones added since the earlier transcript. It should be noted for Warwick that all of the small farm cemeteries were checked in this manner. The large cemeteries (over 1000 gravestones), which are also more modern, were recorded but not checked.

Today (1996) the project has grown to 30 volunteers working in all areas of Rhode Island. An additional 918 cemeteries have been registered, bringing the total to 2,780. Transcripts have been found for an additional 400 plus cemeteries that have not yet been located. Over 340,000 burials are listed in the database. The best estimate now is that there are 3,200 cemeteries in Rhode Island containing 500,000 burials. The database is on computers at the Rhode Island Historical Society, the American French Genealogy Society, the East Greenwich Free Library and the Warwick Public Library. Anyone can now do a computer search for a gravestone anywhere in Rhode Island. The index to the database is available on a computer at the New England Historical and Genealogical Society in Boston. In the future the entire database will be put onto a CD ROM disk so that researchers anywhere in the country will be able to get a copy of the full database.

Recording the cemeteries in Warwick is quite a different task than recording the cemeteries in a rural town like Exeter, the last town for which a book was published. Because of the heavy development in Warwick very few of the cemeteries are located more than fifty feet from the nearest road. By contrast many of the Exeter cemeteries are 400 feet or more from the road and some are over half a mile from the nearest road. All but seven or eight cemeteries in Warwick had been recorded in the past, and these transcripts were an excellent guide as to what cemeteries were located in Warwick. In Exeter, by contrast, there were almost 100 cemeteries that had never been recorded in the past. This made the task of finding them more difficult as there was not even a list of what existed. Virtually every acre of land in Warwick is inhabited so there was always a land owner to inquire about the exact location of a cemetery. In Exeter a large portion of the western half of the town is state land belonging to Arcadia and Beach Pond state parks. No one has lived on this land for over sixty years, so there is no one to ask about the location of the many farm cemeteries located on these acres. To find cemeteries on that property, researchers had to walk grid patterns through the woods looking for ancient house foundations near which the family burial ground could be located. Warwick's heavy population density, unfortunately, has been the cause of some heavy vandalism to some of the cemeteries. About a half a dozen are so heavily ravaged that there are not enough pieces left to do any kind of restoration. Several more have been so completely obliterated so that no trace remains. Exeter by contrast has virtually no vandalized cemeteries. Finally ticks; Warwick has no ticks. In over four years of walking through every inch of every cemetery in Warwick not a single tick was found. In Exeter it was not unusual to pick 25 ticks off your clothing after only 30-40 minutes in a cemetery.

109 cemeteries had been registered by 1992 when this recording of Warwick was begun. An additional 48 cemeteries were identified and recorded during this project, bringing the number of registered cemeteries to 157. Some of these are cemeteries that no longer exist in their original locations. The Stukley Matteson Lot (WK118) was located between Cowesett Road and Centerville Road in the path of Interstate #95. It was removed to Brayton Cemetery (WK034), probably in the 1960s, to make room for the Interstate. We have James Newell Arnold's transcript of 1893 to thank for a description of the original location of this family burial ground. Eight other small farm cemeteries were also removed to Brayton Cemetery. Two were removed to Swan Point Cemetery in Providence. Three were removed to Greenwood Cemetery in Coventry. One each were removed to Pawtuxet Memorial Park in Warwick, All Saint's Cemetery in Warwick and North Burial Ground in Providence. These cemeteries have been registered to preserve as much information as possible about the original location.

This book documents 12,058 gravestone inscriptions in 154 cemeteries in Warwick. Three twentieth century cemeteries were not recorded: Lincoln Park (WK011), Sinai Memorial Park (WK101) and New Pawtuxet Cemetery (WK143). The oldest gravestones in Warwick were crudely inscribed fieldstones. Next came slate, then marble and then granite. There are 44 fieldstones, 589 slate, 2,717 marble and 8,163 granite gravestones documented in this transcript. In addition to these there are 17 sandstone from the Connecticut River valley and one schist from eastern Connecticut. The breakdown of the gravestones by century is as follows:

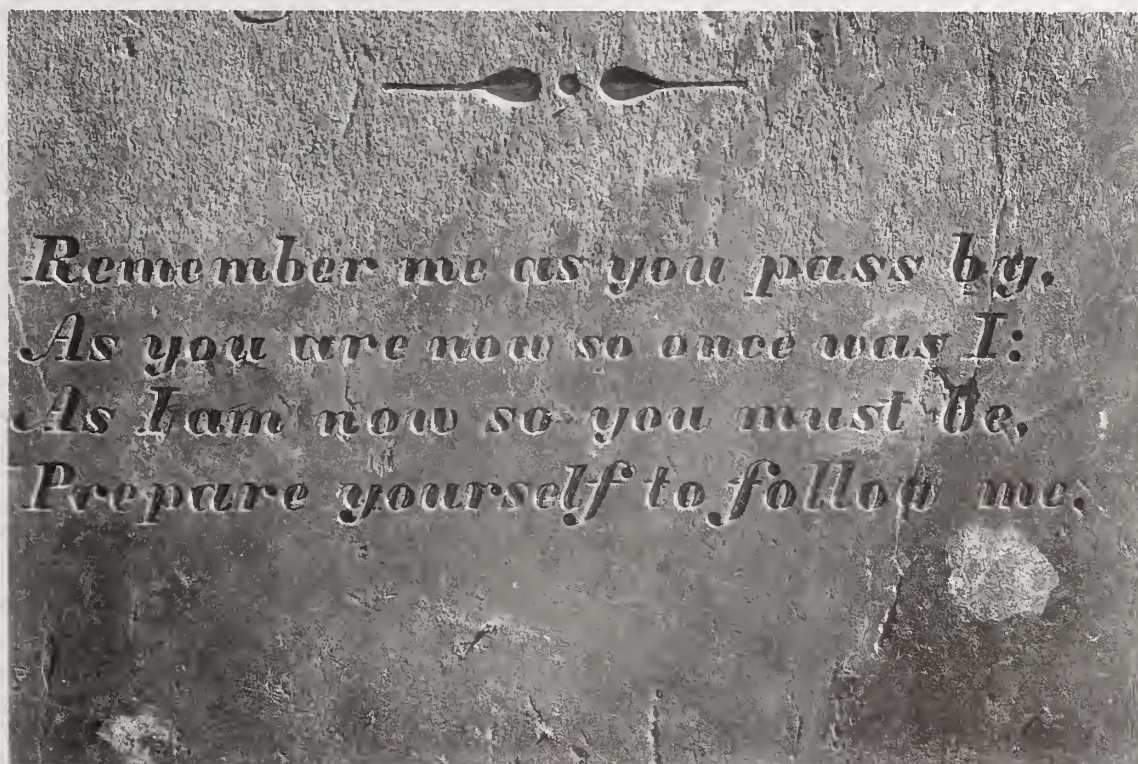

7,705	twentieth century
3,092	nineteenth century
266	eighteenth century
5	seventeenth century

The five oldest gravestones found are:

1659	Surgeon John Greene	WK066
1672	Sara Tefft	WK051
1676	John Wickes	WK028
1695	Mary Greene	WK066
1698	James Greene	WK066

Of these the Sara Tefft stone is probably the only one that was placed on the grave in the seventeenth century. There are 154 gravestones in Warwick that date from the colonial period.

James Arnold recorded about ninety percent of the cemeteries of Warwick from 1890-1894. Four handwritten volumes of his work are now at the Rhode Island Historical Society in the manuscript collection. References in this work to Arnold volumes 1,2,3 or 4 refer to these books. After a dispute with the Society Mr. Arnold gave the balance of his cemetery inscriptions to the Knight Memorial Library in the Elmwood section of Providence. These records have been typed and added to by several people in the 1920s and 1930s. These typed pages for Warwick are contained in a notebook labeled volume 29. Many of the cemeteries are recorded in both places, but for some reason there are records in the typed volume that are not in the handwritten volumes and there are records in the handwritten volumes that are not in the typed volume. Neither location has a complete set of Arnold's cemetery transcripts for Warwick. Both sites must be consulted for the entire work of James Arnold. It should also be noted that Mr. Arnold recorded Warwick from 1890-1894, before West Warwick was split off in 1919. His records, therefore contain Warwick and West Warwick. In order to identify all of the Warwick cemeteries in his work, the West Warwick cemeteries had to be located in the field and identified so they could be separated.

ACKNOWLEDGMENTS

We are all indebted to James Newell Arnold who spent his life preserving the vital records and gravestone inscriptions of Rhode Island. He traveled from cemetery to cemetery in Warwick with his horse and buggy from 1890 to 1894, meticulously recording the inscriptions and noting the location and condition of each cemetery.

Charles and Martha Benns traveled around the state (presumably by automobile) from 1931 to 1940 recording approximately 1,000 cemeteries. Charles frequently read the stones and Martha recorded and typed the records. In the introduction to their work they state:

“When we first undertook this work we did not know of the thorough and voluminous cemetery records left by Mr. James Arnold and which are now in the Knight Memorial Library of Elmwood, but later we discovered that his records were taken so many years ago that many stones he had recorded are now gone, and many have been erected since he saw the cemeteries; so it seemed well to record whatever we might find” (Vol. 1, p. introduction).

I am grateful to Vincent Luti, the recognized expert on Rhode Island gravestone carvers; for checking the gravestone photographs and verify the carver attributions in this book.

Many people have been helpful in locating the many lost cemeteries in Warwick. Among them are George Lawson, Carol Lantz, Violet Kettelle, Bill Naughton, Amy Hoyle, David Williams, Michelle Williams and Donna Ledoux. Florence Patenaude and Helen Sharples recorded 22 cemeteries and were invaluable in providing information on two cemeteries that had been moved. Stuart Boggs and John Currier in the Warwick City Planning Office gave me full access to the city planning maps and records that locate many of the cemeteries.

Several people supplied information about their families that helped establish some of the relationships. Among them were Deby Nunes, Gertrude Barrington and Cherry Bamberg.

The research on the Sara Tefft gravestone in cemetery #51 was done by Craig Anthony and John Sterling. This research is ongoing, and will be the subject of an article next year.

Mark Russell, the Cemetery Commissioner for Warwick, was able to supply some valuable information for this project. His adopt-a-cemetery program is preserving and restoring the historical cemeteries of Warwick for future generations.

The excellent cemetery maps for the four large cemeteries are the work of Malcolm Denniss.

I am truly grateful to Cherry Bamberg and my wife Sandy Sterling for the many hours they spent proof reading and editing this work. Their contribution has improved the accuracy and readability of the book.

HOW TO USE THIS DATA

Each cemetery in this book contains a map of the gravestone location within the cemetery. Each stone that contains an inscription is numbered with a map number in a pattern that starts in the north west corner of the cemetery and goes left to right front to back. Since all of these cemeteries face west, the lower edge of the map is west and the top is east. The stones on the map without numbers are unmarked fieldstones, or as James Arnold calls them, 'rude' stones.

Map numbers are assigned so that the gravestones can be presented in natural order. When printed in this order people are shown next to those they are buried next to. In the larger cemeteries these map numbers can help you look ten gravestones left and right of the person in whom you are interested. This will often yield the names of related people. The map numbers can help you identify some of the unmarked field stones. For example in cemetery #WK036 Hannah Millerd is map number 0007. Next to her is an unmarked fieldstone. It is very likely that that is her husband Charles Millerd. Occasionally you will see a small letter after a map number, like 16a. This was done to insert a gravestone into the proper sequence, usually when it was found while checking the cemetery data.

At the right of each gravestone entry is a code consisting of six letters that describe the composition, condition, shape, status, carving and legibility. The height and width of the stone are also recorded here. Below are the codes used to describe the gravestones.

Composition of stone

[M] Marble	[S] Slate	[G] Granite
[B] Bronze	[SS] Sandstone	[HC] Hollow cast metal
[F] Fieldstone	[PM] Polished Marble/granite	[CC] Concrete
[SC] Schist	[W] Wood	

Condition of stone

[G] Good	[F] Fair	[P] Poor
----------	----------	----------

Shape of stone

[S] Square top	[R] Rounded top	[P] Pointed top	[F] Fancy top
[M] Monument	[H] Horizontal slab	[T] Tomb	[U] Crude field stone
[O] Other	[C] Cross		

State of stone

[U] Up	[D] Down or out of position	[R] Repaired	[B] Broken
--------	-----------------------------	--------------	------------

Carving

[S] Skull & crossbones	[B] Skull with wings	[W] Winged creature	[A] Angel
[0] none (zero)	[R] Rising sun	[U] Willow Branch/urn	[H] Hand pointing up
[F] Rose bud/flower	[L] Lamb	[M] Misc. other	

Legibility of stone

[G] Good	[F] Fair	[P] Poor
----------	----------	----------

For example the Squire Millerd gravestone in WK036 is coded:

S G F U U G 36 18

This indicates his stone is slate, good condition, fancy top, upright, urn and willow carving, good legibility, 36 inches high, 18 inches wide. Any stone with a code in this book was recorded between 1992 and 1996. Any stone without this code is only known to exist through the work of an earlier transcriber. The legibility code is important because it tells you how well the stone can be read. If it is 'Good', it means the stone can be easily read and should be accurate. If it is 'Poor', it means there is some part of the inscription that the recorder was not sure of and there could be an error in the data. 386 gravestones or 3.2% were recorded as having poor legibility. Less than 1% of the gravestones could not be read.

The condition of a cemetery is stated as it might look after a weekend of cleanup. It is not called poor if it is simply overgrown with weeds and briars. If all the stones are in good shape and the cemetery would be considered good with a cleanup, it is listed as in good condition. Vegetation growth is very transitory and can change dramatically in a few months of neglect.

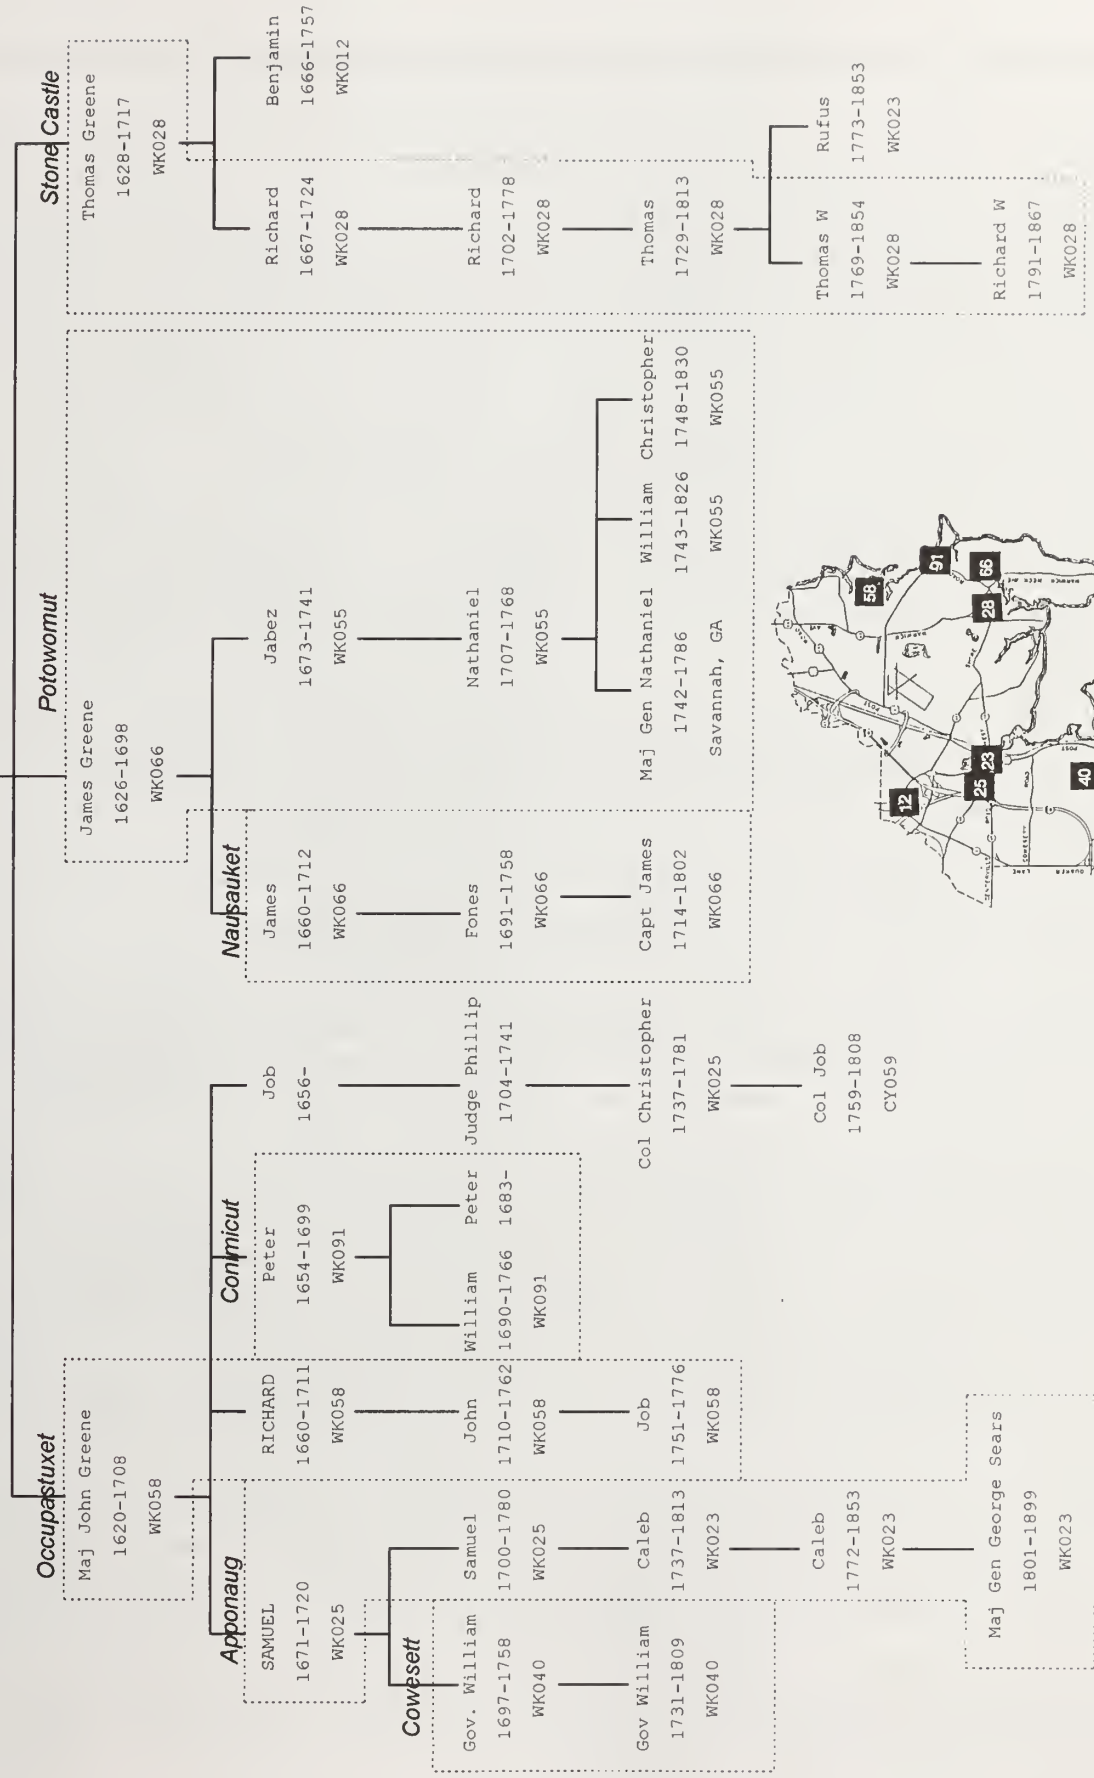

Dates on gravestones usually reads like 'died February 10, 1826 in her 82d year.' When this data is entered into the computer the birth year is calculated and stored as 1745c. The little 'c' on the birth year indicates it was calculated and does not appear on the gravestone.

Data, such as maiden name or parents' names, has been added to the transcript for some gravestones. This data is included in square brackets [] to indicate it was added to the transcript, and will not be found on the gravestone. This added data came from vital records, probate records, descendants, etc. There are no guarantees on this data, but it is from usually reliable sources.

The Greene family was probably the most prolific in early Warwick. Surgeon John Greene was one of the first settlers, having come to Warwick from Providence in 1642. The Greene family owned land in all parts of Warwick. There are nine Greene family cemeteries. It is sometimes difficult to understand how all of these branches of the family are related. The chart on the following page attempts to show those relationships.

MARINERS IN WARWICK CEMETERIES: LIFE AND DEATH AT SEA

Shipping in Warwick today consists of pleasure boat marinas, from which boats fan out over Narragansett Bay on sunny weekends. In colonial times and well into the 19th century Warwick was an important seaport. We are reminded of this by the burial grounds, which are full of stories of the sea, the brief inscriptions merely hinting at intense drama. Many of the markers for these seafarers leave one with more questions than answers. The simple phrase “lost at sea” does not begin to describe the full circumstances of death. Among those with that simple phrase are: Capt. Daniel Aborn, d. 1783 age 34; Peleg R. Arnold, d. 1818 age 34; Sion H Arnold, d. 1847 age 24; Capt. John Brattell, d. 1799 age 34; Capt. William R. Chapman, d. 1839 age 44; Daniel Aborn Randall, d. 1870 age 32; Capt. William Clark Taylor, d. 1887 age 51; Capt. Peleg Remington, d. 1776, age about 40; Capt. Elisha H. Rhodes, d. 1858 age 53; and Capt. Rice Holden, d. 1751 age 19. Many people are curious about whether or not the bodies lie beneath these gravestones. We know that many of these mariners were washed over board during storms, never to be seen again. Their families would sometimes erect a memorial in the family burial ground. Many of these mariners died at sea, on board ship, due to disease or injury. Most of these were buried at sea because of the problem of preserving the body on the long voyage home. Occasionally for a captain or a wealthy merchant who died on a voyage, the body was preserved by folding it in half, putting it into a barrel and filling it with rum.

Some died close to home, but many more died in exotic places around the world in the course of merchant shipping. Stephen S. Reynolds “died on a passage from Providence to Savannah, Georgia. Interred at Cape Fear, NC”, d. 1812 (WK005). Capt. Richard Low was “the first citizen of this state who explored the Indian and Chinese seas to Canton”, d. 1795 (WK068). Peleg Wilbur “died on a passage from Batavia to Boston”, d. 1844 (WK007). Capt. John Evans “drowned on the Labrador coast”, d. 1839 (WK075). Joseph H. Rice “died at Canton, China”, d. 1822 (WK125). The inscription on Joseph Rice’s gravestones give a hint of the sorrow of his family at not being able to attend his funeral:

*By stranger’s hands his eyes were clos’d: By strangers were his comely limbs compos’d:
By strangers to his grave was born. No kindred there for him to mourn.*

Two gravestones give hints about the slave trade carried out by many Rhode Island ship masters. Capt. Benedict Arnold Greene “died at sea in the Mozambique Channel, Master of the Bark *Maryland*, owned by Rufus Greene & Co. of Providence”, d. 1858 (WK028). Capt. Charles Remington “died at Sierra Leone, Africa”, d. 1810 (WK003).

Warwick’s gravestones also commemorate many soldiers and sailors. Sylvester Rhodes survived the Revolutionary War in a prison ship only to die on his passage home after the war. “He was an officer in the Revolutionary Army and suffered imprisonment in the *Jersey Prison Ship*. He died on his passage home and was buried at New Haven, Conn” (inscription on his gravestone WK003). A soldier in another war was also claimed by the sea during his return from the war. William B. Greene a member of Co. L 3rd RI Cavalry was returning with his unit from New Orleans after the Civil War when he was “lost at sea in the Steamer *North America*,” d. 1861 (WK068). Thomas B. Vaill served as a member of the crew of the iron clad ship *Monitor* in 1861 during the Civil War (WK034). John R. Sweet served in the Civil War, “seaman US Navy 45 months on the frigate *St. Lawrence*” (WK034). James H. Daily also served in the navy during the Civil War on the steamship *Marblehead* (WK034). Carl R. Lundgren served on the *USS Seawolf*, a nuclear submarine (WK013).

A few give the name of the ship from which they were lost. John Aborn Whitney and his brother Henry were “lost with the Brig *Ceres* in 1803” (WK002). Thomas Whitney was “lost with the Brig *Rising Sun* in 1806” (WK002). Capt. Caleb Pearce “ was lost at sea with his ship *Andrew* and crew in 1820” (WK034). Some died in small boats. Corp Essex and his son John are buried in the Potowomut section on Warwick (WK054). They both “perished in the sinking of his boat”, 1821.

These snapshots of life at sea, captured from gravestones, give a hint about the adventure as well as the dangers in the lives of these mariners.

ABORN - WHITNEY LOT

WARWICK HISTORICAL CEMETERY # 2

This burial ground was located in Pawtuxet, but on October 14, 1958 it was removed to the New Pawtuxet Cemetery, in the southeast corner, next to the Chinese section. It contains 49 burials.

James Arnold visited this lot 3 August 1890 and noted, "in village of Pawtuxet, Warwick side north of the Greenwich Road on knoll lot without protection, some of the stones broken and the tomb much out of repair" (Vol. 1, p. 139). Grace Tillinghast visited the cemetery 2 August 1932 and described it as, "south of the Rhodes dance hall, in field." It was 900 ft. north of Post Road before removal to New Pawtuxet Cemetery.

The gravestones are not in their original order, so James Arnold's map numbers from 1890 have been used here to more nearly replicate the original cemetery's natural order. Those without descriptions or dimensions below were not found in 1995 and the data is from the Arnold transcript.

PROPHET-HAMMOND-WICKES LOT

WARWICK HISTORICAL CEMETERY # 6

This cemetery no longer exists in its original location. It was removed from behind #2215 Elmwood Avenue to Brayton Cemetery (WK034) to make way for elderly housing in the 1950s. The gravestones were laid flat on the ground and a granite monument was erected that reads "Here lie the remains of the Hammond Prophet family, removed from the cemetery in Norwood." The original cemetery was 75 ft x 50 ft with 23 graves. It was on the tax assessor's map, Plat #244, Lot #182.

James Arnold visited this lot 19 Sept. 1890, and noted, "On the east side of Sand Pond a burial yard of colored people, neglected. Another a few rods from Apponaug-Greenwich Road" (Vol. 4, p. 69). He found 6 slate and 11 marble gravestones. The map numbers are from his transcript, recorded in the cemetery's original location. It was recorded again in 1938 by Charles and Martha Bennis, their #928.

The Lippitts and Daileys are descendants of the Pequot Indian tribe.

ARNOLD LOT

WARWICK HISTORICAL CEMETERY # 7

The Arnold Lot is located 20 ft north of Columbia Avenue at telephone pole #5. It is 90 ft x 120 ft, in fair condition with no enclosure. The historic cemetery sign is missing. The cemetery contains 68 burials with 50 inscribed stones and 12 fieldstones. It is on the tax assessor's map, Plat #303, Lot #418.

James Arnold visited this lot 13 July 1890 and noted, "On the Neck Road a fair street about one mile south of the village of Pawtuxet, much neglected, poorly protected" (Vol. 3, p. 1). Charles and Martha Benns recorded this lot in 1933, their #241.

In 1994 it is between two houses on Columbia Avenue (a suburban street) in an overgrown lot. This burial ground has colonial slate gravestones from some of the finest carvers in Providence.

WARWICK HISTORICAL CEMETERY # 8

This cemetery is located beside Spring Green Road on the east side at the corner of Narragansett Parkway, at telephone pole #13. It is 40 ft x 40 ft, in good condition, with no enclosure. The historic cemetery sign is missing. The cemetery contains 35 burials, with 4 inscribed stones and 31 fieldstones. It is on the tax assessor's map, Plat #303, Lot #566.

James Arnold visited this lot 17 Aug. 1890 and commented, "on the east side of Spring Green Farm Road, about one mile north of Spring Green Farm at Doukes Hill. There are some Doukes buried here" (Vol. 1, p. 159). Arnold noted 31 fieldstones and 4 slate gravestones. The fieldstones are gone in 1994. In the Arnold collection at the Knight Library, Vol. 29, p. 219, is another transcript done in 1930 by D. W. Seamans.

WARWICK HISTORICAL CEMETERY # 10

This cemetery is located 700 ft south of Post Road at telephone pole #126. It is 25 ft x 25 ft, in fair condition, enclosed with a iron pipe fence. The historic cemetery sign is missing. There are 6 burials with 3 inscribed stones and 3 fieldstones. It is on the tax assessor's map Plat #309, Lot #190.

Arnold visited this lot 7 Sept. 1890 and noted, "On land of Ethan T. Peck is a burial yard in which yard we find two graves, one which has not been marked as yet and the other has a small marble monument (Frank T Peck). Outside are 3 graves in a line of whom we have not as yet learned" (Vol. 3, p. 155). In 1995 it is just north of Route #37, behind the parking lot of Norwood Motors. The fence is pipe and grating in very poor condition.

LINCOLN PARK CEMETERY

WARWICK HISTORICAL CEMETERY # 11

Located 100 ft west of Post Road at telephone pole # 141, just south of Route #37. It is a 26 acre, modern Hebrew cemetery, in excellent condition, enclosed with a metal fence. It was started in 1908 and belongs to Chased Schel Amess Association. There are 54 sections in this cemetery, each one belonging to a different temple, society or fraternal organization. Each group keeps the records for its section, with various degrees of success. Some of the temples and organizations are now defunct, and the records lost. In an attempt to remedy this, the cemetery association has hired a group of students to record the gravestones in sections for which there are no records, and they are adding these to their computer. This information is sketchy, containing only the name, death date, section, lot and plot number.

This cemetery is beyond the scope of this book for reasons of age, size and difficulty. Because it was started in 1908, the people buried here lived during a time of excellent government record keeping that provides plenty of independent genealogical data. It contains 15,000-20,000 burials, many of them from Providence and Cranston rather than Warwick. Many of the gravestones are written in Hebrew which would require considerable assistance to translate. It should be noted, however, that the stones, particularly the older ones, include much genealogical information in keeping with the Jewish tradition.

ARNOLD LOT

WARWICK HISTORICAL CEMETERY # 12

This cemetery has been removed to Greenwood Cemetery in Coventry (CY059) and Swan Point Cemetery in Providence (PV003). It was located one half mile east of Bald Hill Road at telephone pole #33, where Macy's department store is located today. It was moved to make way for the mall in the early 1970s. It contained 50 burials with 30 inscribed stones.

James Arnold visited this lot 20 Sept. 1891 and noted, "on the farm of Judge Arnold south of Pontiac Village, lot protected with granite posts & iron rails, some neglected" (Vol. 4, p. 104). Arthur James called it 'Island Farm' (Vol. 29, p. 212). Charles and Martha Bennis recorded this lot in 1936, their #661.

The map numbers below were developed from the Arnold transcript, when the cemetery was in its original location and order. No map is provided because the gravestones are no longer in their original positions.

ST. PAUL LUTHERAN CEMETERY

WARWICK HISTORICAL CEMETERY # 13

This cemetery is located beside the south side of Greenwich Avenue in Pontiac at telephone pole #73. It contains 2,800 burials with 2,313 inscriptions. The cemetery is still being used. It's on the tax assessor's map, Plat #271, Lot #168.

James Arnold visited this lot 20 Sept. 1891. He called it the "new yard at Pontiac, yard fenced in good order" (Vol. 4, p. 129).

St. Paul Lutheran Cemetery and All Saints Cemetery are side by side with the last few sections interlaced. The superintendent in 1995 is Richard Nelson. Each entry starts with section number followed by the map number.

The sword was stolen in the early 1950s' but was recovered in 1956. It was placed at the Varnum House in East Greenwich for safe keeping. The bronze tablet was recently recovered from a scrap dealer and will soon be suitably displayed at city hall. The inscription reads: "THIS STONE TAKEN FROM NEAR CULP'S HILL ON THE BATTLEFIELD OF GETTYSBURG, WHERE WITH ONE SMALL BRIGADE ON THE NIGHT OF 2 JULY 1863, HE OCCUPIED THE TRENCHES OF THE ENTIRE 12TH ARMY CORPS AND SUCCESSFULLY RESISTED AN ATTACK BY GREATLY SUPERIOR FORCES DIRECTED AGAINST OUR RIGHT FLANK, WHICH ATTACK, BUT FOR HIS GALLANT TRY AND SKILL WOULD HAVE CAUSED THE DEFEAT OF THE UNION ARMY. REV. SAMUEL LITTLEFIELD LOT

WARWICK HISTORICAL CEMETERY # 24

This cemetery is located 1000 ft north of Strawberry Fields Road at telephone pole #44, behind the old Leesona Plant, inside a barb wire fence. You must get permission to enter this area as it is a toxic waste site. Enter at telephone pole #44, drive to end of road past a small pond and follow the fence to the cemetery. It can also be reached from Industrial Drive. This cemetery has been heavily vandalized. A broken monument and two badly broken slate stones were all that could be found in 1995. The five Budlong stones have been removed to Brayton Cemetery (WK034). Several of the Littlefields were removed to Swan Point Cemetery in Providence. The cemetery is 50 ft x 60 ft, in very poor condition, with no enclosure. The historical cemetery sign is missing. It contained 24 burials with 19 inscriptions and five fieldstones. Apparently there were several slate stones, and then a marble monument was erected to the Thomas Littlefield family. It is on the tax assessor's map, Plat #342, Lot #430.

James Arnold visited this lot 4 Oct. 1891 and noted, "on the Elder Littlefield farm northwest of Old Warwick on the plains and in the rear of the house on knoll surrounded by woods, well walled, good condition" (Vol. 4, p. 171). Charles and Martha Benns recorded this cemetery in 1937, their #609.

WARWICK HISTORICAL CEMETERY # 34

Brayton Cemetery is located in Apponaug, 20 feet east of Post Road at telephone pole #355. It is 850 ft x 300 ft, in good condition. It is enclosed with a stone wall on the south and west boundary and granite posts and rails on the north boundary. The historical cemetery sign in good condition. There are about 3,800 burials with 2,948 inscribed stones and four fieldstones. It is on the tax assessor's map, Plat #244, Lot #182.

James Arnold visited this lot 23 Oct. 1892 and commented, "in the Judge Brayton yard at Apponaug, lot well walled though portions of the yard are neglected" (Vol. 2, pp. 359-400). Charles and Martha Benns recorded part of this cemetery in 1932, their #168.

There are 105 Civil War veterans in this cemetery identified on their gravestones and probably others whose stones are not marked. Nine small farm cemeteries have been removed to this cemetery: WK006, WK117, WK118, WK119, WK121, WK141, WK146, WK154, WK155. See them for details of the gravestones.

MARBLE LOT

WARWICK HISTORICAL CEMETERY # 39

This cemetery is located 15 ft east of Midget Avenue in the Nausauket section at telephone pole #10.5. This cemetery is 100 ft x 50 ft, in very poor condition, with no enclosure. The historic cemetery sign is missing. At one time there were 30 burials with 22 inscribed stones and 6 fieldstones. It is on the tax assessor's map, Plat #367, Lot #548.

This cemetery was heavily vandalized in 1970s and 1980s. Much of the damage was done when automobiles were driven through the cemetery and down the hill to the field beyond. Only pieces of five stones could be found in 1995. Some gravestones were moved to Warwick cemetery #125, behind #341 Providence Street about 1915.

James Arnold visited this lot 11 Oct. 1891 and noted, "on the farm on the east side of the Taylor farm across the road in open lot unprotected" (Vol. 4, p. 198).

SARA TEFFT LOT

WARWICK HISTORICAL CEMETERY # 51

This cemetery is located 75 ft north of Cole Farm Road at telephone pole #37.5; it is 100 ft north of the Cole Farm Association meeting hall, opposite cottage #B18. The fencing is concrete posts and iron rails that surround the grave of Sara Tefft. It is 20 ft x 20 ft, in good condition. It originally contained 6 burials with 2 inscribed stones and 4 fieldstones. It is on the tax assessor's map, Plat #315, Lot #99.

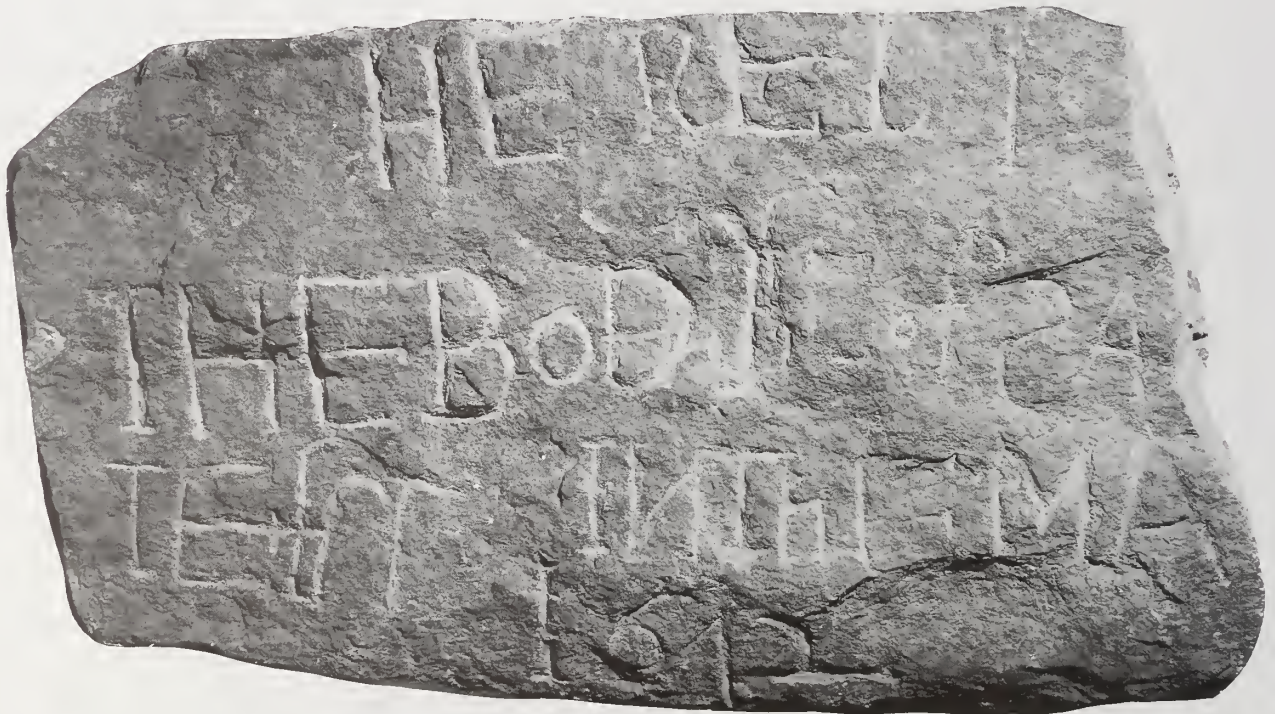

James Arnold visited this lot 17 Aug. 1890 and noted, "In open pasture at Mark Rock without protection a yard containing but a few graves" (Vol. 2, p. 206).

The gravestone for Sara Tefft was long thought to bear the date of 1642, which would make it the earliest gravestone known to exist in New England. A study of the original gravestone and of records of Sara Tefft's life indicates the date is 1672, when she died soon after giving birth to her son Peter. Sara was the wife of Joshua Tefft. The original gravestone is a crudely inscribed fieldstone. In 1868 it was taken to the Rhode Island Historical Society for safekeeping and a slate replacement stone put in its place. The replacement stone has the following inscription:

"Here lieth the bodie of SARA TEFFT Interred March 16, 1642 (sic) in the 67th year of her age. (sic) The above is a copy from the original stone taken from this spot and deposited with R. I. Historical Society, Providence. Erected in 1868 by Rufus Greene of Providence descendant of 7th gen. from John Greene from Salisbury, Eng. in 1635, who was one of the original purchasers of these lands of Miantonomi in Jan 1642" (sic)

THE OLDEST INSCRIBED GRAVESTONE IN NEW ENGLAND - OR IS IT? THE SARA TEFFT GRAVESTONE REEXAMINED

The Sara Tefft gravestone has long been considered the oldest inscribed gravestone in New England. It is a crudely inscribed fieldstone, obviously not cut by a trained gravestone carver. It was placed on a grave in a small family cemetery on the southern shore of Occupessatuxet Cove in a section of Warwick, Rhode Island known as Cole's Farm. The earliest mention of this gravestone is found in the papers of Dr. Usher Parsons at the Rhode Island Historical Society. It was probably recorded about 1840 and reads:

HERE LIETH
THE BODIE of SARA
TEFFT INTER MARCH 16
1642

In 1868 the gravestone was removed from the burial site and placed at the Rhode Island Historical Society Cabinet. It was later moved to the John Brown House, where it is now stored. The gravestone had apparently been broken, as part of some of the words are missing. The missing piece is about 17" by 10". The Dr. Usher Parsons transcript is needed to identify the day (16) in the date. A slate replacement stone was placed on the grave site by Rufus Greene when the original was removed to the Rhode Island Historical Society. The replacement stone reads:

"Here lieth the bodie of SARA TEFFT Interred March 16, 1642 (sic). in the 67th year of her age (sic)."
"The above is a copy from the original stone taken from this spot and deposited with R. I. Historical Society, Providence. Erected in 1868 by Rufus Greene of Providence descendant of 7th gen. from JOHN GREENE from Salisbury, Eng. in 1635, who was one of the original purchasers of these lands of MIAANTONOMI Jan 1642."
[(sic), lands purchased in Jan 1643]

The replacement stone has since been smashed into four pieces. It is uncertain where Rufus Greene got the age "in the 67th year of her age." It does not show in the early transcript by Dr. Parsons and there is no indication on the original stone that there was an age inscribed below the date or that it was broken off. As will be shown later, Sara died in childbirth and it is not likely that she was in her 67th year.

On August 17, 1890 James Newell Arnold (Vol. 2, p. 206) visited this site as part of his project to transcribe Rhode Island cemeteries. He described it as "in open pasture at Mark Rock without protection a yard containing but a few graves." Arnold noted six burials on his visit. Four were marked with 'rude stones' (uninscribed fieldstones), one was the slate replacement stone for Sara Tefft placed by Rufus Greene 22 years earlier and one crudely inscribed fieldstone for Elizabeth Ston[e]. Arnold could not read a date but Oliver P. Fuller indicates in his *History of Warwick* (1875) that the date of her death was in the year 1707. Elizabeth Stone, whose maiden name was Shaw, was married to Peter Stone. They were married June 25, 1696 and had six children in Warwick from 1697 and 1704.

An extensive examination of the Sara Tefft gravestone was conducted using a bright light and a magnifying glass. Particular attention was paid to the third number in the year which has been read in the past as a four, but is probably a seven. Three factors were considered that helped identify which was the correct number.

First, there is a reddish brown patina on the surface of the stone. The patina is broken due to chipping around the 'Y' and 'E' in the word 'BoDYE' and to the right of the last 'T' in 'TeffT.' It is also clearly interrupted where each letter and number is carved. When looking for the horizontal line in the third number of the year that should exist had the carver intended the number to be a four, the patina is not interrupted. This would indicate that there was never a horizontal line in this location, even though it is possible to imagine one due to the rough surface of the granite and the awkward positioning of the numeral.

The second consideration was that all of the letters and numbers on the gravestone were carved with a round tipped tool about 1/4" in diameter. Most of the carving is engraved about 1/4" deep into the surface of the stone. The tool marks are evident in all of the letters and numbers, where distinct crescent shaped marks can be seen with 1/16" spaces between them. A careful study of the area where the horizontal line should be if the number was a four did not yield any signs of such tool markings.

The last, and probably most compelling evidence that indicates that the number was intended to be a seven, as opposed to a four, is the fact that there is no intersection of lines at the point where the horizontal line would cross the vertical line. At every other location in the carving where two lines intersect, they intersect at the same level. A careful study of the vertical line, which is about 1/4" deep, shows no indication of a line coming in from either side.

From this study it seemed clear that the carver intended to engrave a seven, albeit the carver was no master in the craft. While this type of 'lazy seven' is unusual, it is certainly not unique. Several other examples can be found throughout Rhode Island and New England on crudely inscribed fieldstones.

If the date of March 16, 1642 were correct, it would mean that Sarah Tefft was buried ten months before Warwick was purchased by the original proprietors from Miantonomi on January 12, 1643. It is highly unlikely that an English woman would have been buried on Indian land.

In the records of the town of Warwick is an entry documenting the birth of Peter Tefft to Joshua and Sarah:

*Peeter Tiftt Sonn of Josua Tiff by Sarah his wife, was borne
ye 14th of march ye yeer 1671/2 in Warwicke (Warwick Vital Records, A1:15)*

This date is just two days before the March 16, 1672 date on Sarah Tefft's gravestone.

Peter Tefft's father, Joshua, was hanged and quartered at Wickford during King Phillip's War in 1676. He was captured at Providence with one Indian after he and a raiding party of 41 Narragansetts burned Capt. Fenner's house. He was interrogated by Capt. Fenner and other officers, while Roger Williams recorded the proceedings on January 14, 1676, about how he come to be with the Narragansetts. He told how the Indians had come to his farm in Kingstown, and taken him prisoner along with his cattle, which they later killed. He was in the Narragansetts' fort with the Indians during the Great Swamp Fight. Two days after the interrogation Joshua was taken to Richard Smith's garrison house at Wickford where, after a short military trial, he was hanged and quartered by the troops of the United Colonies.

Peter Tefft's mother Sarah died shortly after his birth. His father was killed before he turned four. On March 22, 1681 an order of guardianship was filed in Warwick for "Peter Tift orphan son of Joshua Tift" (Warwick Town Book A1:27). Three persons were chosen guardians: Mr. Jireh Bull Sr. of Kingstown, John Greene Jr. of Warwick and Samuel Tefft, uncle of Peter and brother of Joshua. Peter later went to live with his uncle in Providence and was adopted into his family.

This evidence leaves little doubt that the correct recording of this gravestone is "Sara Tefft, March 16, 1672."

WARWICK HISTORICAL CEMETERY # 52

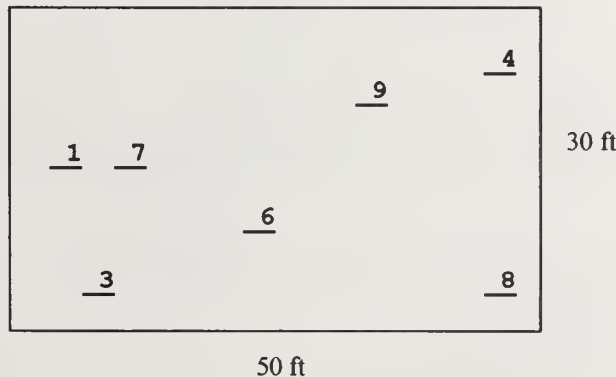

This cemetery is located 50 ft north of Eton Avenue, in Conimicut at telephone pole #14. It is 50 ft x 30 ft, in poor condition, with no enclosure and the historic cemetery sign is in good condition. The cemetery contains 15 burials with 11 inscribed stones and four fieldstones. It is on the tax assessor's map, Plat #317, Lot #398.

The cemetery is within sight of the bay. Most of the marble stones have been broken, and the sandstone stones are badly deteriorated. The stones are out of place so the James Arnold recording order was used to establish the map numbers. The damage seen in 1995 is not new; Bennis noted in 1935 That the cemetery is "almost destroyed," (Bennis #419)."

Arnold visited this lot 17 Aug. 1890 and noted, "at the village of Marked Rock, a short distance from the landing, lot neglected" (Vol. 4, p. 23). Gravestones below with incomplete codes are from the Arnold records and were not found in 1995.

STAFFORD LOT

WARWICK HISTORICAL CEMETERY # 53

This cemetery is located 60 ft west of West Shore Road at telephone pole #83, west of Fuller Street. It is 100 ft x 75 ft, in fair condition, enclosed with a wall made of cinder blocks. The cemetery contains 60 burials with 37 inscribed stones and 18 fieldstones. It is on the tax assessor's map, Plat #332, Lot #749.

This cemetery originally extended to West Shore Road. In 1979 the front portion was paved to make a parking lot, and several gravestones were moved back. All of the gravestones recorded by Benns in 1933 were found in 1994. Charles and Martha Benns recorded this lot "at Shawomet Beach" in 1933, their #137.

OLD BAPTIST CHURCH BURIAL GROUND WARWICK HISTORICAL CEMETERY # 56

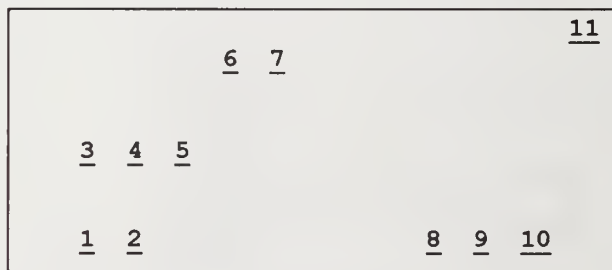

This cemetery is located at the northwest corner of West Shore Road and Church Avenue, at telephone pole #2. It is bounded by Lovell Avenue on the west, Church Street on the south and West Shore Road on the east side. The cemetery is 100 ft x 55 ft, in fair condition, with no enclosure. The historic cemetery sign is in fair condition. It contains 31 burials with 10 inscribed stones and 20 fieldstones. Only one of the 20 fieldstone marked graves noted by Arnold could be seen in 1994. It is on the tax assessor's map, Plat #332, Lot #1.

The old Baptist Meeting House stood at the right center of this burial ground. This was the oldest church in town, having existed as a branch of the First Baptist Church of Providence since the time of the first settlement. It assumed its independent existence about 1725. By 1730 it had 65 members. The church, which was forty feet square, was taken down in the spring of 1830. There is a picture of the church in Fuller's *History of Warwick* p.309.

This lot was visited by James Arnold in 1894 Vol. 29, pp. 138-140 and by Benns in 1934, their #356.

SPRING GREEN BURIAL GROUND

WARWICK HISTORICAL CEMETERY # 58

This cemetery is located on the Spring Green Farm, 300 ft north of 566 Spring Green Road. It is 45 ft x 20 ft, in good condition, with no enclosure. The historic cemetery sign is in good condition. It contains 12 burials with 11 inscribed slate gravestones and one fieldstone. It is on the tax assessor's map, Plat #314, Lot #16.

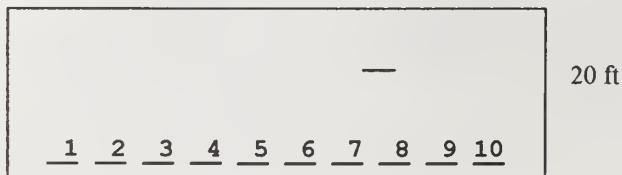

The fieldstone marks the grave of an unknown Portuguese sailor who was buried here when he died of small pox on board ship and could not be carried into the port of Providence. The ship stopped at Spring Green where his body was taken ashore and buried.

James Arnold visited this lot 17 Aug. 1890 he noted, "on the Spring Green Farm a short distance northeast of the farm house, fence in need of repair, yard in fine order" (Vol. 4, p. 17). In the 1930s Henry A. L. Brown, the current owner, remembers a fence of locust poles and wire. It was removed about 1944.

This is the finest collection of colonial gravestones in Warwick, by three of the finest carvers in the Narragansett Basin: John Stevens I, Stephen Hartshorn, and Henry Emmes. The first four slate gravestones were all carved by John Stevens I of Newport. They are all lettered in lower case. John Stevens used upper case until 1712. They all have his classic skull with wings design. He used that design until 1716. These gravestones were probably all ordered and made at the same time, probably in 1714 or 1715.

This lot is located 70 ft south of Main Avenue at telephone pole #57, behind the house at #600 Main Avenue on the corner of Gorham Avenue. The cemetery is about 20 ft x 20 ft, in fair condition with no enclosure. It contains 15 burials with two inscribed stones. The historical cemetery sign is in good condition. It is on the tax assessor's map, Plat #345, Lot #730.

HOWARD-REMINGTON LOT

WARWICK HISTORICAL CEMETERY # 78

This lot is located 15 ft south of Main Avenue at telephone pole #57. The cemetery is 130 ft x 90 ft, in fair condition, enclosed with an iron fence. It contains 27 burials with 15 inscribed stones and 12 fieldstones. The historical cemetery sign is down. It is on the tax assessor's map, Plat #344, Lot #492.

There is a reservation for this cemetery in the deed of Solomon Howard dated 23 Mar 1801. In 1847 the will of William Miller conveyed his property (bought in 1843 from John Shrieve) "except for my family burial ground, bounded south by the Howard Burial Ground." It is very possible that Millers and Shrieves are buried here in unmarked graves.

Arthur James recorded this lot about 1934 (Vol. 29, p. 224 of the Arnold collection). Charles and Martha Benns recorded this lot in 1934, their #279, however they mistakenly labeled most of these stones as being in WK026. They probably recorded both lots the same day and inadvertently confused their notes.

William Guarzia Bennett was the son of Thomas and Lydia (Guarzia) Bennett. Thomas resided in Newport until the occupation by the British during the Revolutionary War, at which time he removed to Old Warwick. Lydia Guarzia's father, Capt. John Guarzia, a Portuguese, was captain of a gunboat with a crew of five and two six-pounders. The English ship *St. James* left Jamaica with 600 tons of sugar, bound for England with five other vessels. They became separated in a gale off Cape Hatteras. Capt. Guarzia spotted the prize and attacked. The crew aimed their shots at the sails and the rigging. After a continuous assault of five days, the British ship with a crew of thirty surrendered in the sixth day. The *St. James* was brought to East Greenwich by Capt. Guarzia and his crew. They divided the cargo as prize money.

William G. Bennett was raised in the Quaker faith. He followed the sea like his grandfather Capt. Guarzia. He sailed between East Greenwich and South America for six years. He quit the wandering life of a mariner and apprenticed under Stutkley Williams to the trade of carpenter. For thirty years he worked as a carpenter. He was for many years the head carpenter at Natick for A. and W. Sprague. He also maintained the farm he purchased in Warwick.

GENERAL WILLIAM BATTEY LOT

WARWICK HISTORICAL CEMETERY # 86

This cemetery was originally located in Hills Grove, 150 ft west of Blackburn Street at telephone pole #7; on the tax assessor's map, Plat #301, Lot #483, now (1995) the site of the United Parcel Service terminal. It was removed in June of 1971 to the old section of Pawtuxet Memorial Park, near the Arnold Cemetery, WK005.

It contained 25 burials with six marble stones and 18 fieldstones. James Arnold visited the lot in its original location 27 Sept. 1891 and commented, "on the Battey farm north of Hills Grove well walled, neglected" (Vol. 3, p. 197).

The stones have been set up in their new location in two rows. The top of the General William Battey stone is in position 4 while the bottom is in position 2 and the footstone is in position 9. Other footstones are also mixed in.

GEORGE H. ARNOLD LOT

WARWICK HISTORICAL CEMETERY # 88

This lot is located 250 ft west of Bald Hill Road at telephone pole #118, on a hill between the Barnes and Noble book store parking lot and the Edward's Super Store (1996). All of the stones are down but none is broken. This cemetery has been photographed and has been the subject of several newspaper articles because of the way retail development has encroached on the cemetery, leaving it high above its surroundings. It is 25 ft x 20 ft, in fair condition, enclosed by a stone wall and iron gate. It contains six burials with five inscribed stones. It is on the tax assessor's map, Plat #254, Lot #5.

James Arnold recorded this lot 28 Aug. 1892 and noted, "on the Harris Arnold farm, walled" (Vol. 4, p. 234).

WARWICK HISTORICAL CEMETERY # 90

This cemetery is north of Asylum Road at telephone pole #12 in the city park. This cemetery is 135 ft x 150 ft, in good condition, with no enclosure. It contains 100 burials with 76 fieldstones without inscriptions. It's on the tax assessor's map, Plat #372, Lot #2.

James Arnold visited this lot 25 Oct. 1891 and commented, "on the Asylum farm northeast from the house, lot fenced, some neglected" (Vol. 4, p. 228).

This was the cemetery for the Warwick Asylum (poor farm) from 1870 to 1943. Also buried here are paupers from elsewhere in town. The early markers are plain fieldstones; the later ones are cast concrete with no markings. The data on the burials comes from the almshouse records.

PETER GREENE LOT

WARWICK HISTORICAL CEMETERY # 91

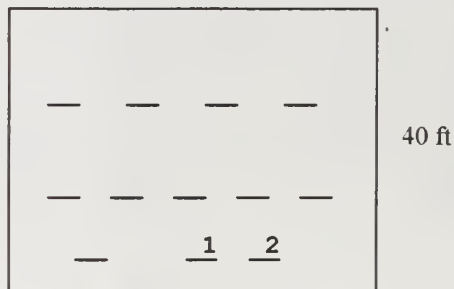

This lot is located 100 ft south of Ivan Avenue at Wuddall Avenue at telephone pole #5, at #60 Wuddall Avenue beside the garage. The cemetery is 40 ft x 40 ft, in fair condition, with no enclosure. It contains 12 burials with two inscribed stones and 10 fieldstones. It is on the tax assessor's map, Plat #333, Lot #387.

James Arnold visited this lot in 1894 and commented "at Shawomet Beach in open lot covered with dense growth of wild plums" (Vol. 29, p. 138). He only found the Stephen G. Warner stone.

Stephen Greene Warner was one of the owners of the Peter Greene house at the corner of West Shore Road and Economy Terrace. This cemetery probably contains the remains of the early owners of the Peter Greene house and the Moses Greene house. Part of this burial ground was washed away in the great gale of 1815.

COL. CHRISTOPHER SMITH LOT

WARWICK HISTORICAL CEMETERY # 93

This lot is located 50 ft from Warwick Avenue, behind the residence at #468, at telephone pole #15. It is across from Rose's Family Restaurant, between a church and an apartment building, opposite Prince Street. The cemetery is 20 ft x 50 ft, in poor condition, enclosed with granite posts and iron rails. It contained 20 burials with 14 inscribed stones. The historical cemetery sign is in fair condition. It is on the tax assessor's map, Plat #290, Lot #160.

James Arnold visited this lot 3 Aug. 1891 and noted, "at Pawtuxet, neglected" (Vol. 4, p. 78). Charles and Martha Benns recorded this lot in 1936, their #705.

All but three gravestones and one footstone were missing in 1995. The Smiths and Potters except for Sarah Smith and Samuel Smith (#1 and #2) were moved to Swan Point Cemetery in Providence between 1936 and 1995. The map numbers are from the order recorded in the Arnold transcription when all gravestones were in their original position. As this book is being finalized plans are being made to move this cemetery, possibly to Greenwood Cemetery in Coventry.

REGIA CLERI CEMETERY

WARWICK HISTORICAL CEMETERY # 94

This cemetery is located 800 ft west of Warwick Neck Avenue. The cemetery is now 15 ft x 9 ft, in excellent condition, enclosed with a wrought iron fence. It is on the tax assessor's map, Plat #381, Lot #22. This is a cemetery for Roman Catholic priests on the grounds of Society Brothers of Our Lady of Providence, 150 ft northeast of the Aldrich Mansion House. In 1986 the diocese finished removing the remains of all but one of the 39 priests buried here. Rev. Thomas P. Gilfillan is the lone remaining priest.

WARNER LOT

WARWICK HISTORICAL CEMETERY # 95

This cemetery is located 15 ft south of Coleman Street, beside #14 Coleman Street, at telephone pole #3, directly at the end of the road. This cemetery is now 35 ft x 30 ft, in fair condition, with no enclosure. It is on the tax assessor's map, Plat #354, Lot #33.

James Arnold visited two cemeteries in this vicinity on 15 July 1894 and commented, "at Shawomet Beach west of the station beside the wood, a distance, not protected and neglected. Should think there were about 40 graves in this yard all marked with rude stones" (Vol. 29, p. 148).

We are told this cemetery was bulldozed in the 1980s and the slate stones disappeared. There are only 11 fieldstones visible in 1995.

MAJOR PARDON POTTER LOT

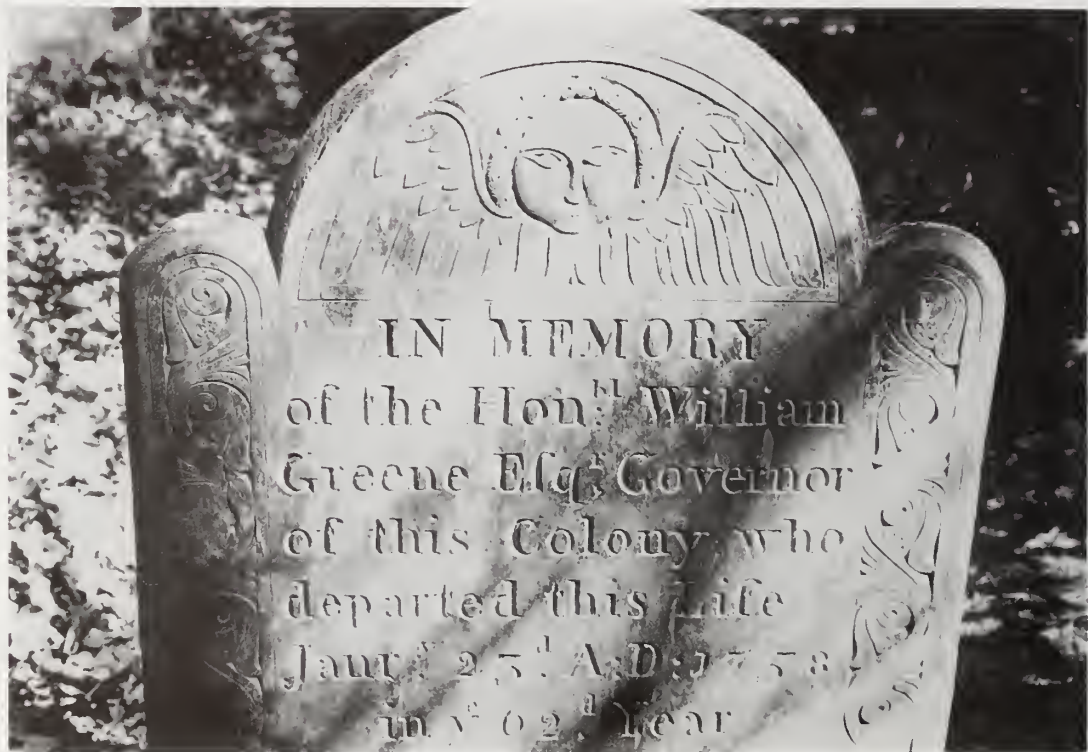

WARWICK HISTORICAL CEMETERY # 96

This cemetery is located 150 ft south of Major Potter Road at telephone pole #19. It is on the tax assessor's map Plat #224, Lot #6.

James Arnold visited this lot 16 July 1892 and noted, "Cowesett Avenue, south side of road in corner of lot unprotected" (Vol. 2, p. 337).

It is likely the stones were moved as the land was developed. The gravestones are leaning against trees behind #364 Major Potter Road. Both stones are badly broken and Mary's is almost completely destroyed. The cemetery was probably about 40 ft x 40 ft, with no enclosure. It contains 6 burials with 2 inscribed stones. The historical cemetery sign is missing.

HOLDEN-BICKNELL-TAYLOR

WARWICK HISTORICAL CEMETERY # 99

This cemetery is located 100 ft east of New London Turnpike, east of the Valley Country Club parking lot. It actually consists of four adjacent lots with 68 burials, 47 inscribed stones and 15 fieldstones. It is on the tax assessor's map, Plat #252, Lot #3.

The cemetery has been recorded as four sections:

Sect A: This is probably the oldest lot. It is a fine cut stone wall, 90 ft by 85 ft containing Holdens. There are at least 15 fieldstone burials here, probably older Holdens.

Sect B: This lot is adjacent to Sect A to the east. It is 90 ft by 35 ft surrounded by granite posts and iron rails.

Sect C: This lot is adjacent to Sect B to the east. It is 90 ft by 20 ft and is not enclosed, although there are indications that granite posts ran along the east edge at one time. The south end has Masons and the north end has Bicknells

Sect D: A wooded area north of the other three, has no enclosure and is 150 ft by 125 ft

James Arnold visited this lot 12 June 1892. He found it "on the brim of the hill on the New London Turnpike on the east side of the road. Some lots neglected some fair" (Vol. 2, pp. 245-270). Arthur James visited in the 1930s, "on Jabiz's Hill" (Vol. 29, p. 222).

LIPPITT/SPYWOOD LOT

WARWICK HISTORICAL CEMETERY # 105

This lot is located 10 ft south of Sheldon Avenue at telephone pole #2, at the junction of Sheldon Avenue and Shirley Street, between Sheldon Avenue and the Citizens Bank parking lot. The cemetery is 25 ft x 25 ft, in fair condition, enclosed with a iron posts and chains. It contains 11 burials with 10 inscribed stones and one fieldstone. The historical cemetery sign is in good condition. It is on the tax assessor's map, Plat #294, Lot #231.

James Arnold visited this lot 6 Sept. 1891 and noted, "Greenwich Road south side, 1/2 mile west of railroad crossing southwest of Pawtuxet in open field without protection. We are told these are colored people" (Vol. 3, p. 191).

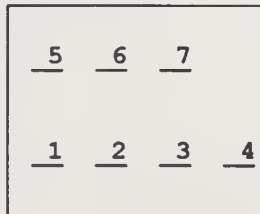

The area around this cemetery was known as New Guinea after the Africans who settled there in the later part of the eighteenth century after slavery was abolished in Rhode Island. Many were descendants of Revolutionary War veterans who served with distinction in the 1st Rhode Island Continental Regiment, fighting with distinction in the Battle of Rhode Island in August of 1778 and many subsequent engagements throughout the war. Many, but not all, of the soldiers in this regiment were black, Indian, mulatto or mustee. The soldiers in this regiment served five year enlistments running from the spring of 1778 to the end of the war. This was considerably longer than the service in other regiments (information supplied by Henry A. L. Brown and Cherry Bamberg).

NICHOLAS ARNOLD LOT

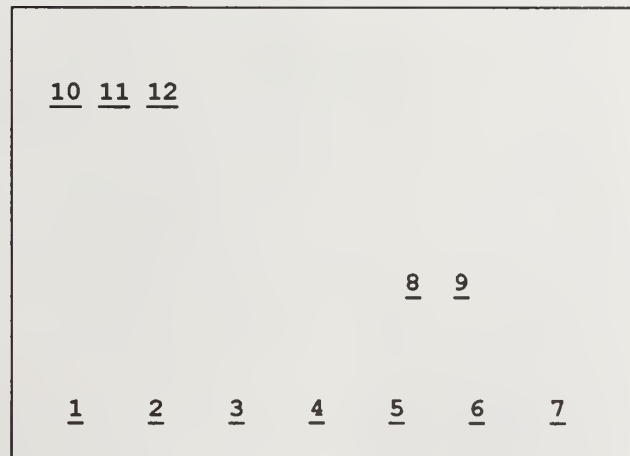

WARWICK HISTORICAL CEMETERY # 109

This cemetery is located 150 ft south of Shenandoah Road, behind the house at #78 Shenandoah. It belongs to *Elm Crest* estate located at 55 Cowesett Road but it is best reached from Senandoah Road. It is 50 ft x 40 ft, in good condition, enclosed with a stone wall and an iron gate. It contains 12 burials with 12 inscribed stones. Although the stones are almost all down, they are in excellent condition; with a weekend of cleanup this cemetery could become a real showplace. It is on the tax assessor's map, Plat #236, Lot #11.

James Arnold recorded this lot 15 Jan. 1894 and noted, "at Ladd's Watering Place north westerly, yard walled and jointed, yard neglected" (Vol. 3, p. 422).

Capt. John Drake was b. 20 Sept. 1694 in Weymouth, MA, the second child of John and Sarah (King) Drake. He married Esther Joyce, a widow, in Boston 25 June 1719. His grandparents were Thomas and his first wife Jane Holbrook. Thomas, the son of William and Margaret, was born in Colyton, County Devon, England in 1635. He was baptized 13 Sept. 1635. He settled in Weymouth, MA in 1653/4. Thomas was active in King Phillip's War, manning the garrison in 1676. Capt. John and Esther had two children in East Greenwich: Elizabeth b. 1 Mar 1724/5 and Francis b. 29 May 1725. Esther also had two children by her first husband (East Greenwich VR).

LADD-HAVENS LOT

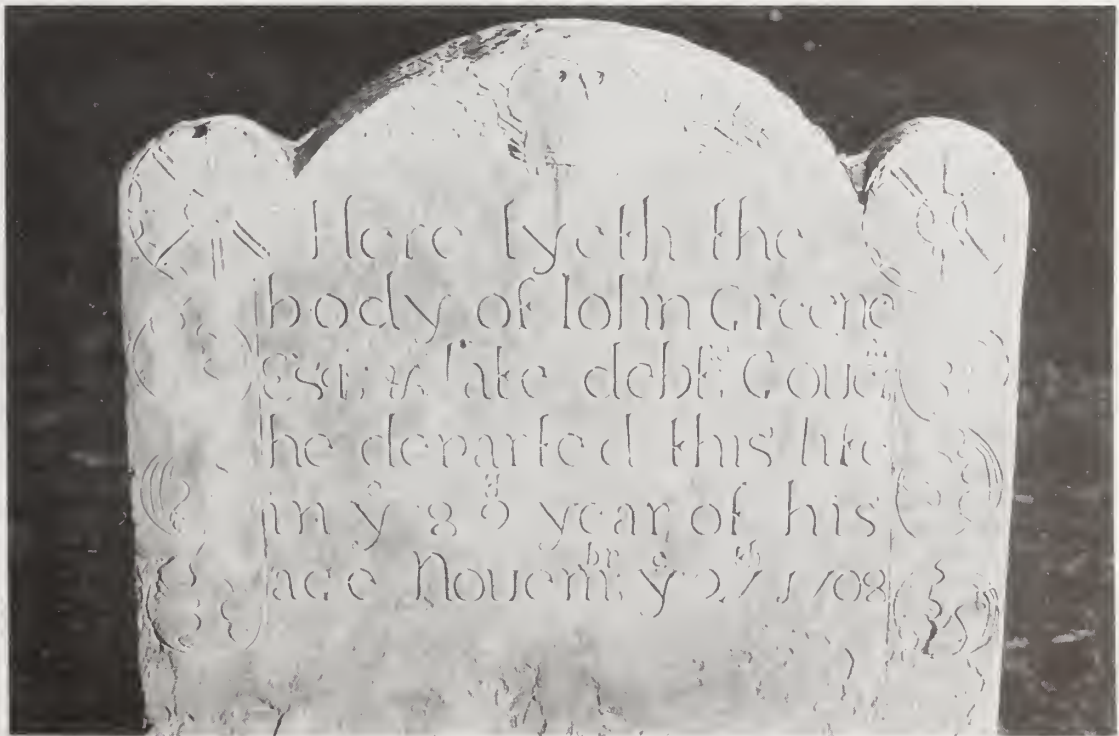

WARWICK HISTORICAL CEMETERY # 111

This cemetery was originally located 150 ft north of Centerville Road (Route #117), east of Route #2, where the K-Mart was built in 1993. It was removed to All Saints Cemetery Sect E Lot 91 on 23 Nov. 1987. The remains of approximately 13 people were placed in a single grave. The gravestones were all disposed of during this removal as was the stone wall.

We are told that these were large beautiful slate gravestones with urn and willow motif. This removal is an example of how not to move a cemetery. The gravestones and a lovely stone wall were destroyed, even though the state laws in affect at the time were technically followed. That is the letter of the law was followed, but certainly not the spirit. In 1996, partly because of the loss of this cemetery, steps are underway to change this law.

James Arnold visited this lot 28 Aug. 1892 and commented, "on the farm east of the Harris Arnold farm in the rear of the farm buildings beside wall, showing neglect" (Vol. 4, p. 237).

ELDER CHARLES HOLDEN LOT

WARWICK HISTORICAL CEMETERY # 115

This cemetery is located 600 ft west of Second Point Road at telephone pole #10.5. It is located behind the garage at #107 Second Point Road. It contained nine inscribed gravestones in 1891 and is estimated to have been 40 ft x 40 ft. In 1996 it is in very poor condition, with no enclosure. The four gravestones that remain are stacked at the edge of a clearing.

James Arnold visited this lot 25 Oct. 1891 and noted, "at Old Warwick on Elder Charles Holden farm, yard neglected" (Vol. 3, p. 225). Fuller's *History of Warwick* says Elder Holden was buried in a spot 30-40 rods (500-650ft) west of the residence of John Wickes Greene. This description led to the rediscovery of this cemetery in 1996.

MOSES LIPPITT LOT

WARWICK HISTORICAL CEMETERY # 116

This cemetery was found 90 ft south of River Vue Road at telephone pole #11. The cemetery is between #92 and #78 River Vue Road. In 1995 the gravestones are on the ground about 40 feet south of where we are told the cemetery was located. The cemetery apparently only contains these two graves. No previous transcript of this cemetery was found.

CAPT. WILLIAM ARNOLD LOT

WARWICK HISTORICAL CEMETERY # 117

This cemetery no longer exists in its original location behind the town hall in Apponaug. It was removed to the Brayton Cemetery section H. It contained 11 burials with nine inscribed stones and three fieldstones.

It was recorded twice by James Arnold. First on 23 Feb. 1891 he noted, "rear of town clerk's off at Apponaug on small hill open lot unprotected." (Vol. 3, p. 166) The second visit was 8 May 1895. He commented that he found it "at Apponaug on south side of Cove on the brow of the hill in open lot unprotected" (Vol. 29, p. 165).

STUKLEY MATTESON LOT

WARWICK HISTORICAL CEMETERY # 118

This cemetery was located in the path of Interstate 95 between Cowesett Road and Centerville Road. It was removed to Brayton Cemetery (WK034) to make way for the highway about 1960.

James Arnold visited this lot 26 Nov. 1893 and commented, "on Stukley Matteson farm north of the house well walled good condition" (Vol. 1, p. 502). He recorded the gravestones for Sarah, Annie and Cedelia.

Note that the last name is spelled 'Mattison' on two of the daughter's stones.

Arnold visited this lot 28 Aug. 1892 and noted, "On the Tibbetts farm north of the house yard walled and in fine order" (Vol. 4, p. 240). It was recorded again in 1932 by Grace Tillinghast: "back from Rice Cemetery [WK021], above on hill" (Vol. 29, p. 241).

HARRIS ARNOLD LOT

WARWICK HISTORICAL CEMETERY # 120

This cemetery was located 250 ft west of Bald Hill road at telephone pole #118, 33 ft north of the George Arnold Lot (WK088). This location is where the Edward's Super Store was built in 1993. No record could be found of this cemetery having been removed, so it is presumed that it was destroyed. The cemetery contained two burials, each marked by a fieldstone. It is on the tax assessor's map, Plat #254, Lot #3.

James Arnold visited this lot 28 Aug. 1892 and noted, "In a pasture 2 rods [33 ft] north of the above [WK088], unprotected and overgrown" (Vol. 4, p. 234). This lot was the final resting place of Harris Arnold and his wife, according to James Arnold.

GORTON-ARNOLD LOT

WARWICK HISTORICAL CEMETERY # 122

This cemetery is located 15 ft south of Douglas Road at telephone pole #9, between #144 and #158 Douglas Road. It is north of, and adjacent to WK022. This cemetery is 120 ft x 50 ft, in fair condition, enclosed with a stone wall. It contains 33 burials with 28 inscribed stones and five fieldstones. It is on the tax assessor's map, Plat #248, Lot #13.

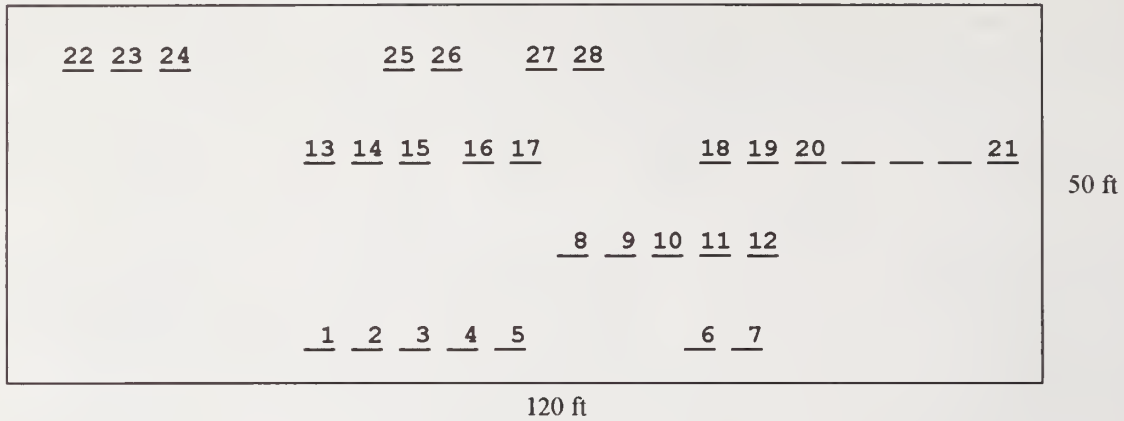

James Arnold recorded this cemetery 28 Aug. 1892 and commented, "on the farm of Jeremiah Foster, west of his house separated by a wall from the Foster-Kenyon lot (WK022)" (Vol. 1, p. 281). Charles and Martha Benns visited this lot in 1939, their #841.

MAJ. GENERAL THOMAS HOLDEN LOT WARWICK HISTORICAL CEMETERY # 126

This lot is located 400 ft north of Division Street, at telephone pole #94. It is northwest of East Greenwich historical cemetery #72. Follow the drive adjacent to this cemetery, on the west side, toward the red house. Just before reaching the house there is a fork where the old road turns west. Follow this road (along the stone wall) about 200 ft to the cemetery. It is 65 ft x 65 ft, in good condition, enclosed with a stone wall with an iron gate. The gate has a unique chain from which is suspended a large iron ball. As the gate is opened the ball is lifted, so that upon letting go the gate the ball falls and pulls the gate closed. The cemetery contains 24 burials, all of which are marked with inscribed stones. It is on the tax assessor's map, Plat #216, Lot #9.

James Arnold visited this lot 2 May 1892 and noted, "Beside the road east of Barton's corner lot walled and yard in fine order" (Vol. 1, p. 229). Barton's corner is the intersection of Route #2 and Division Road.

Charles and Martha Benns found the Sarah Parliament stone in the Cranston Friends' Cemetery (CR068) in 1932, their #88. They were not aware it had been moved from Warwick. The stone data below comes from a 1995 visit to the Cranston Friends' Cemetery.

This cemetery was located 10 ft south of Major Potter Road, at telephone pole #78, 1,000 feet east of Route #2. The original walled lot is 50 ft x 60 ft, with an iron gate.

James Arnold visited this lot 16 July 1892 and noted, "On Cowesett Avenue on south side of road well walled and laid in concrete, yard in fine order" (Vol. 2, p. 339).

It contained about 40 burials with two inscribed stones.

James Arnold visited this lot 11 Oct. 1891 and noted, "At Apponaug on the top of the hill just east of the railroad station and between the two roads, a yard fenced and in fair order 40 rude stones. A public yard used by the town" (Vol. 1, p. 227).

CAPT. JOHN LOW BURIAL GROUND

WARWICK HISTORICAL CEMETERY # 141

This cemetery was removed to Brayton Cemetery (WK034) in Apponaug from Old Warwick in 1910. It contained 11 burials with nine inscribed stones. A manuscript at the Rhode Island Historical Society, "Family Record of Capt. (and Judge) Anthony Low of Old Warwick, begun by him in 1754", documents this family. It gives the following information about this burial ground: "He [Anthony Low] was buried, with his two wives and most of their children, in the Low Family Burying Ground on the farm in Old Warwick. In 1910 this ground was sold, and the family were removed to two lots in the Brayton Cemetery in Apponaug, R.I. under the care of two of his great, great grandchildren, viz. Miss Mary Anne Green and Col. H. Irving King."

James Arnold visited this lot 15 July 1894 and noted, "on the farm a little west of the Thomas Greene burial ground, lot walled but yard inside much neglected" (Vol. 29, p. 145). Charles and Martha Benns recorded this cemetery at Brayton in 1932, their #168.

Note that the adult slate gravestones are all 24" by 14". They all have the same look, yet they mark burials covering a 100 year period from 1732 to 1832. Two are signed "J. Tillinghast", but they do not appear to be as skillfully carved as other Tillinghast stones. This mystery requires further investigation.

PHILIP ARNOLD LOT

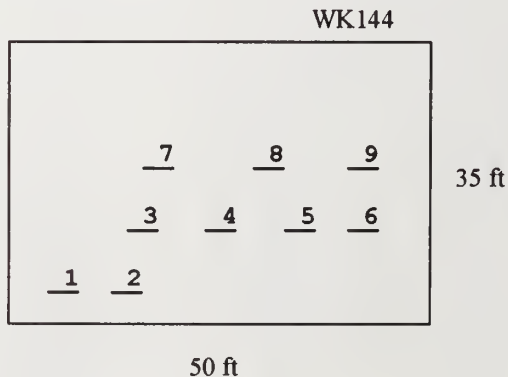

WARWICK HISTORICAL CEMETERY # 144

This cemetery is located 300 ft west of Commonwealth Avenue, on the property at #211 Commonwealth Avenue. It is just south of College Hill Road. The wall of the cemetery can be seen behind the chain link fence, on the bank behind the first building south of Murray's on Route #2. The cemetery is 50 ft x 35 ft, in fair condition, enclosed with a stone wall. It contains 12 burials with 11 inscribed stones and one fieldstone.

James Arnold visited this cemetery 18 Sept. 1893 and noted, "on farm south of Gov. Sprague farm at Natick, west side of the road, lot walled and in good order, neglected" (Vol. 1, pp. 486-492). It was recorded again by Mrs. Herbert Tillinghast in 1926, "Webster Knight Farm Natick" (Vol. 29, p. 230). Charles and Martha Benns visited it in 1935, their #384.

BRUSH NECK FARM BURIAL GROUND

WARWICK HISTORICAL CEMETERY # 146

This cemetery was removed to Brayton Cemetery (WK034) in Apponaug from Brush Neck Farm in 1903. There is now a granite monument with 23 names located in section 'J'.

The ancestors of this family was nearly wiped out during King Philip's War in 1675. The only survivor was the son John (1672-1744), from whom all Rhode Island Budlongs descend. He is said to have been captured by the Indians and was traded back for pumpkins. Roger Williams mentions this child in a letter to Governor John Leverett dated 14 January 1676. While interviewing Joshua Tefft, he was asked " what was the English child wch was brought [torn] to the Gen: he Said that Pumhoms men had taken it at Warwick." A footnote to this letter says "On 5 Jan 1675/76, the Indians delivered to Winslow an English child, about three or four years old, who had been taken at Warwick. Supposedly the child was returned to demonstrate Indian good will and a sincere desire for peace."

James Arnold visited this lot 25 Oct. 1891 and noted, "On the Asylum Farm northeast from the house, lot fenced, some neglected" (Vol. 4, p. 228).

SAMUEL LOW CEMETERY

WARWICK HISTORICAL CEMETERY # 147

A review of the records of Swan Point Cemetery in Providence turned up eight burials removed from Warwick. The location is not known, but was probably in Old Warwick. They are now located at Swan Point Cemetery in Providence in Section #175. Six names are memorialized on one granite gravestone, and the other two are on another granite gravestone next to the first.

TAFT LOT

WARWICK HISTORICAL CEMETERY # 148

This cemetery was destroyed between 1935 and 1945. It was located just west of the Royal Crest Apartment complex. It shows on plat map #242 as lot #23. It was located 400 ft south of Centerville Road. We are told by William T. Allen, whose brother owns adjoining property, that he visited this cemetery last in 1935. When he returned in 1945 it had been destroyed by developers.

James Arnold visited this lot 28 Aug. 1892 and noted, "on the Blackmar farm, rear of house on the edge of a hill, not protected, neglected" (Vol. 3, p. 353). It was recorded again by Emma B. Shaw in 1927: "On Blackmar farm, Centerville Road, farm now owned by Mr. Pignolet. Yard in woods, fenced but neglected" (Vol. 29, p.231).

WICKES - GARDINER

WARWICK HISTORICAL CEMETERY # 150

This cemetery was removed to Swan Point Cemetery (PV003) in Providence. It was probably located near the intersection of Warwick Neck Road and West Shore Drive. It contained 15 inscribed stones. All of the Gardiners, except Edwin, are located at Swan Point in sections #389, #290 and #373. The Wickes have not been located.

James Arnold visited this lot 24 June 1891 and noted, "At Old Warwick on the west side of the cove but protected by granite posts and iron rails, inside showing some neglect" (Vol. 1, p. 187). The map numbers were assigned using to the order in which the gravestones were found in the original cemetery, as documented in the Arnold transcript.

CHAFFEE LOT

WARWICK HISTORICAL CEMETERY # 151

This cemetery was created by an act of the legislature to provide a resting place for Tribbie B. Chaffee, the daughter of Senator John Chaffee, who was killed in a horse riding accident October 12, 1968. The cemetery is located on the Chaffee estate on Ives Road in the Potowomut section of Warwick.

GREENE LOT

WARWICK HISTORICAL CEMETERY # 152

This cemetery is located 100 ft east of West Shore Road at Armstrong Avenue, behind the Shawomet Baptist Church, adjacent to the Surgeon John Greene Lot (WK066). This cemetery is 60 ft x 30 ft, in good condition, enclosed with granite posts and iron rails. It contained 17 burials with 11 inscribed stones and five fieldstones. It is on the tax assessor's map, Plat #354, Lot #215.

James Arnold visited this lot 18 Sep. 1892 and commented, "on the farm of R. M. Larned on Warwick Neck, formerly the Greene farm, well walled in fair order" (Vol. 1, p. 337). It was probably moved to its current location soon after Arnold's visit in 1892.

COL. JOHN LOW LOT

WARWICK HISTORICAL CEMETERY # 156

This cemetery no longer exists in the original location. It was moved into the Stone Castle Lot (WK028) sometime between 1894, when James Arnold recorded it and 1935 when Benns found these gravestones at the Stone Castle Lot. It contained four marble, two slate and one sandstone gravestones.

James Arnold recorded this lot 15 July 1894 and noted, "a few rods west of the Capt. Low yard [WK141] beside the road but fenced. Yard in very poor condition and neglected" (Vol. 29, p. 141).

This cemetery was located a few rods west of WK141, which was located on the farm a little west of the Thomas Greene burial ground (WK028). This would put this cemetery up to one quarter mile west of the Stone Castle Lot, WK028, on West Shore Road. The map numbers below are taken from the gravestone current locations in the Stone Castle Lot. See the map for WK028 for the location of these gravestones.

WARWICK HISTORICAL CEMETERY # 157

This cemetery no longer exists. It was destroyed in the 1930s. It was located on Fairhaven Avenue about 100-200 feet east of the Gov. Samuel Gorton Lot (WK067).

James Arnold recorded this lot July 1, 1894 and noted, "a few rods east of above [WK067] in corner lot not protected" (Vol. 29, p. 138). Charles and Martha Benns visited this lot in 1935, their #469. They noted "this cemetery is now (1935) destroyed. We located it near the corner of Warwick Neck Road and Atlantic Avenue and residents gave us the names. The stones have been overturned and covered by buildings. On this same estate is a boulder marked with this inscription 'Samuel Gorton settled near this spot 1642.' "

STUKELEY STAFFORD LOT

WARWICK HISTORICAL CEMETERY # 158

This cemetery is located 75 ft south of Hollow Tree Road at telephone pole # 8, between houses #32 and #42 Hollow Tree Road at the back edge of the lots, on the edge of a steep embankment. It is estimated to be 40 ft x 40 ft, in poor condition. The stone wall found by Arnold was gone in 1996. Arnold found 10 inscribed stones in 1891. Extensive probing did not yield even a fragment in 1996.

James Arnold visited this lot 20 Sept. 1891 and noted "on the Lorry Stafford farm east of Pontiac Village and beside the railroad track. Yard walled, inside of lot much neglected." (Vol. 4, p. 119) The map numbers were assigned to the order in which Arnold found the gravestones in 1891.

APPENDIX - LOST WARWICK CEMETERIES

A cemetery book, like a genealogy book, is never finished. The following cemeteries were still being sought as this book was being sent to the publisher. This data is presented in the hope that someone reading this book will locate one or more of these cemeteries. This data is included in the index with cemetery numbers like WK(appendix)01.

A1. CARDER LOT

James Arnold visited this lot 4 Oct. 1891 and noted, "on Randall Carder's farm at Hills Grove in his orchard, now destroyed" (Vol. 1, p. 214).

A2. SWEET LOT

James Arnold visited this lot 30 July 1893 and commented, "on land of Patrick Nolan, rear of house - persons of color, not protected" (Vol. 1, p. 457). This lot is possibly in West Warwick off Greenwich Avenue.

Charles and Martha Bennis recorded this cemetery in 1938, their #787. "Cemetery almost destroyed. The stones are flat and were covered with grass, and were so broken and misplaced that one could not tell where each stone belonged. There were probably many more persons buried here. At least two graves marked by fieldstones."

A18. SCHOOL MASTER LOT

Fuller's *History of Warwick* says: "One of the old places [burial ground] now [1875] nearly obliterated is about one hundred feet from the present school house. One of the graves was that of Mr. Emmett who was a school teacher at the time of his death ... 1727. Good substantial slate stones with suitable inscriptions marked the place of his interment until the vandalism that came in with our free schools broke them up" (p. 142).

A19. REBECCA ARNOLD LOT

James Arnold visited this lot 30 July 1892 and noted, "in northeast corner of lot opposite the Gov. Greene farmhouse [WK040], neglected are two graves, one marked by rude stone only the other by a slate stone" (Vol. 29, p. 22).

A20. BUDLONG-BRIGGS LOT

James Arnold visited this lot 25 Oct. 1891 and noted, "in a corner of the Asylum farm, graves mostly obliterated and overgrown" (Vol. 4, p. 170).

A21. UNKNOWN LOT

Human bones were unearthed during excavation for the present Ski Mart building at the northwest corner of East Avenue and Interstate 95. The names of the people buried here were never determined.

A22. LIPPITT BURIAL GROUND

Rev. William Hoyle Lane mentions this burial ground in his booklet, *An Interesting Chapter in the History of Rhode Island*, 1926. [booklet loaned by Henry A. L. Brown from his private library] The cemetery was located east of West Shore Road nearly opposite Sandy Lane. Rev. Lane shows this burial ground on a hand drawn map (no page no.).

A23. TIBBETTS LOT

James Arnold visited this lot 30 Oct. 1892 and noted, "on farm in rear of Mr. John Aylesworth beside the woods, lot walled, neglected" (Vol. 2, p. 413). This lot contains three fieldstones. It is located east of A4.

INDEX TO WARWICK, RHODE ISLAND HISTORICAL CEMETERIES

This index contains 12,058 inscriptions. Each entry gives the name, birth and death years, cemetery number, section and map number. If a female's maiden name is on the gravestone it is given in parentheses. All cemetery numbers start with 'WK' for Warwick, followed by the cemetery number. This is followed by a section letter if the cemetery has sections and then by a map number. There are 157 registered cemeteries in Warwick. There are another 23 cemeteries in the appendix that are either lost or have been removed to Swan Point Cemetery from an unknown location. These are identified in the index as 'WK(appendix)' followed by a number to indicate which one.

This book is arranged numerically by cemetery number and then in natural order within the cemetery, first by section number then by map number.

You have my permission to digitize the Warwick cemetery book.

There really should be some books left in City Hall. In 1997 Lincoln Chafee helped me finance the printing of the book by paying for half of the printing and taking half of the books (250) to sell in city hall. The Visitors Bureau provided the funding. The books were stored in a storage room outside the city council chambers. The 250 books I had were selling much faster than those at city hall and I sold out in 2007 or 2008.

Dear Mr. Sterling,

Today I write you wearing two hats: one of a curator at the Boston Public Library and the other as a member of the Warwick Historical Cemetery Commission. Your 1997 book "Warwick, Rhode Island Historical Cemeteries" has been an invaluable reference for the commission and it is most unfortunate that it is no longer in print. I am proud to report that the BPL owns a copy, and with your permission, our Digital Services Department would digitize the pages, making every name searchable using an Internet search engine (such as Google).

The BPL is a member of the Digital Commonwealth, a statewide consortium of libraries, museums, archives and historical societies in Massachusetts that digitizes and provides access to materials of historical interests. Digitizing the book will make the information available worldwide via the web. The Digital Services Department mostly scans material prior to 1924; however, since the book is no longer in print, it makes a good candidate to be scanned. I would appreciate a response letting me know your decision and if you need to be in contact with the publisher for permission.

Sincerely,

Jane Winton, Curator
